Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ40/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: wooden outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 30000 sets / month

Product Specification

- Cabinet Color: Red
- Alarm System: Included
- Discharge Time: 10 Seconds
- Cabinet Size: 500mm*450mm*1450mm
- Cabinet Capacity: 40kg
- Maximum Protective Volume: 63 Square Meters
- Extinguishing Agent: FM200
- Working Pressure: 2.5MPa
- Highlight: **FM200 Cabinet Fire Suppression System, Fire Suppression System 10 Seconds, FM200 Fire Suppression System 40kg Capacity**

Product Description

Red FM200 Cabinet Fire Suppression System 10 Seconds Discharge Time 40kg Capacity

Product Description:

The FM200 Cabinet Fire Extinguishing System has a cabinet capacity of 40kg, allowing for ample storage of the extinguishing agent. This ensures that the system is able to tackle any size fire and keep it under control until the fire department arrives.

The activation method for the FM200 Cabinet Fire Extinguishing System can be either manual or automatic. You can choose the method that best suits your needs and preferences. The automatic mode ensures that the system is activated immediately in case of a fire, without any delay. The manual mode, on the other hand, allows for a user to activate the system when they detect a fire.

The FM200 Cabinet Fire Extinguishing System has a discharge time of only 10 seconds, which is crucial in ensuring that the fire is put out as quickly as possible. This quick response time helps to minimize damage to your equipment and assets, and reduces the risk of injury to your personnel.

The FM200 Cabinet Fire Extinguishing System is designed to operate within a working temperature range of 0°C ~ 50°C. This makes it suitable for use in a wide range of environments and ensures that it will perform reliably when it is needed the most.

The FM200 Cabinet Fire Extinguishing System requires an electrical supply of 220V, 50Hz to operate. This ensures that the system is able to provide a consistent and reliable performance, providing peace of mind knowing that your equipment and assets are protected. Investing in the FM200 Cabinet Fire Extinguishing System is a wise choice for any business or organization that values the safety of their personnel and the protection of their valuable assets. This cabinet fire extinguishing system is the ultimate solution when it comes to fire protection.

Features:

Product Name: FM200 Cabinet Fire Extinguishing System

Cabinet Color: Red

Activation Method: Manual/Automatic

Extinguishing Agent: FM200 (HFC-227ea)

Cabinet Size: 500mm*450mm*1450mm

Working Temperature: 0°C ~ 50°C

This product is a cabinet fire extinguishing system that uses FM200 (HFC-227ea) as the extinguishing agent. It comes in a red cabinet with a size of 500mm*450mm*1450mm and can be activated manually or automatically. It is designed to work in temperatures ranging from 0°C to 50°C.

Technical Parameters:

Cabinet Capacity	40kg
Cabinet Size	500mm*450mm*1450mm
Maximum Protective Volume	63 Square Meters
Extinguishing Agent	HFC-227ea (FM200)
Cabinet Color	Red
Alarm System	Included
Activation Method	Manual/Automatic
Cabinet Material	Steel
Discharge Time	10 Seconds
Working Temperature	0°C ~ 50°C
Pollution-free	Yes

Applications:

The maximum protective volume of the RUIGANG GQQ40/2.5RG FM200 Cabinet Fire Extinguishing System is 63 square meters. This product is activated through manual or automatic methods and has a discharge time of only 10 seconds. The cabinet material is steel, making it durable and long-lasting. The electrical requirements for this product are 220V and 50Hz. One of the key features of this product is that it uses HFC-227ea, a pollution-free and environmentally friendly fire suppression agent. This makes it an excellent choice for use in situations where there is a concern for the environment and the safety of people in the area. The RUIGANG GQQ40/2.5RG FM200 Cabinet Fire Extinguishing System can be used in a variety of scenarios, such as server rooms, control rooms, archives, museums, and more. It is a reliable and effective fire suppression system that can help protect your property and keep people safe.
