

## DC24V/1.6A Enclosed Flooding Server Room Fire Suppression System Fm200

Our Product Introduction

for more products please visit us on [firefm200.com](http://firefm200.com)

### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ70\*2/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 30000 sets / month

### Product Specification

- Spray Time: 10 Seconds
- Cabinet Color: Red
- Power: DC24V/1.6A
- Electrical Requirements: 220V, 50Hz
- Maximum Protective Volume: 254 Square Meters
- Working Temperature: 0°C ~ 50°C
- Fire Protection Level/Pattern Of Extinguishing: Enclosed Flooding
- Working Pressure: 2.5MPa
- Cabinet Size: 950\*450\*1450mm
- Highlight: enclosed flooding server room fire suppression system fm200

## Product Description

### Enclosed Flooding Red FM200 Cabinet Fire Extinguishing System 254 Square Meters Protection

#### Product Description:

The sevofluoropropane gas fire extinguishing device, also known as the sevofluoropropane device without pipe network, is a type of fire extinguishing equipment that is designed to be installed in a full-flooding, independent complete set, and mobile way. It is characterized by its lightweight and easy installation, attractive appearance, and lack of loss of fire extinguishing agent in the pipe network. Additionally, it possesses high fire extinguishing efficiency with rapid speed.

The HFC-227ea fire extinguishing device is a prefabricated, fully submerged fire extinguishing equipment that is an independent complete set of fire extinguishing equipment. It can be connected to the fire control center and driven by the fire alarm and fire extinguishing controller to implement automatic fire extinguishing. The device does not require the installation of a special equipment room since the whole set of fire extinguishing equipment is in the protection area.

#### Applications:

The scope of application for our products includes a wide range of industries and facilities, including computer rooms, medical centers equipped with expensive technology, data processing centers, and industrial facilities that require high levels of protection. Our products are also suitable for use in telecommunications facilities, libraries, process control centers, museums, and art galleries to ensure a safe and secure environment for valuable assets. Emergency power facilities as well as clean rooms that demand high-quality air filtration are also ideal settings for our products.

In addition, our products provide protection in environments that deal with hazardous materials and substances. These include flammable liquid storage areas where fire prevention and suppression are crucial, and anechoic rooms where radiofrequency and audio signal testing and measurement are performed.

No matter what industry or facility requires protection, our products are designed to meet the highest standards and ensure the safety and security of assets.

#### Support and Services:

The FM200 Cabinet Fire Extinguishing System is a highly effective and reliable solution for protecting critical equipment and systems from fire. Our product technical support and services include:

1. System Design: Our team of experts can help design a customized fire suppression system that meets your specific needs and requirements.
2. Installation: We provide professional guided installation services to ensure that your system is installed correctly and works as expected.
3. Training: We provide training sessions for your staff to ensure that they know how to properly operate the system in the event of a fire emergency.
4. Technical Support: Our technical support team is available 24/7 to answer any questions or concerns you may have about the system or its operation.

With our comprehensive technical support and services, you can have peace of mind knowing that your critical equipment and systems are protected from fire with the FM200 Cabinet Fire Extinguishing System.

### Packing and Shipping:

Product Packaging:

FM200 Cabinet Fire Extinguishing System

Installation manual

Mounting hardware

Shipping:

Product will be shipped in a sturdy cardboard box

Shipping method: Ground

Shipping cost will be calculated at checkout

### FAQ:

**Q1: What is the brand name of the FM200 Cabinet Fire Extinguishing System?**

A1: The brand name of this product is RUIGANG.

**Q2: What is the model number of the FM200 Cabinet Fire Extinguishing System?**

A2: The model number of this product is GQQ70\*2/2.5RG.

**Q3: Where is the FM200 Cabinet Fire Extinguishing System made?**

A3: This product is made in Guangzhou, Guangdong, China.

**Q4: What certifications does the FM200 Cabinet Fire Extinguishing System have?**

A4: This product has CCC, ISO9001, ISO45001, ISO14001, and ISO10012 certifications.

**Q5: What are the payment terms for purchasing the FM200 Cabinet Fire Extinguishing System?**

A5: The payment terms for purchasing this product include L/C, D/P, T/T, Western Union, Paypal, and Credit card.
