

## Steel FM 200 Gas Station Fire Suppression System 4L Or 8L DC24V/1.5A

### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: QMQ4.2/150N-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per week

Because we are dedicated,  
so we are professional.

### Product Specification

- Cylinder Material: Steel
- Power: DC24V/1.5A
- Polite Cylinder: 4L Or 8L
- Working Pressure: 4.2MPa
- Filling Density:  $\leq 950 \text{ Kg/m}^3$
- Pattern Of Extinguishing: Enclosed Flooding
- Maximum Working Pressure: 5.3MPa
- Activation Method: Automatic
- Max. Working Pressuer: 5.3MPa
- Working Temperature Range:  $0^{\circ}\text{C} \sim 50^{\circ}\text{C}$
- Discharge Time:  $\leq 10 \text{ S}$

Because we are dedicated,  
so we are professional.

## Product Description

### Steel FM 200 Piping Extinguishing System Enclosed Flooding 4L Or 8L DC24V /1.5A

#### Product Description:

The FM 200 Piping Extinguishing System is made of high-quality steel piping material, ensuring its durability and long lifespan. Its enclosed flooding pattern of extinguishing is highly effective in suppressing fires and preventing them from spreading to other areas. With its automatic activation method, this system provides a quick response to fires, minimizing the damage they can cause. Its nozzle discharge time of only 10 seconds ensures that the fire is extinguished before it can cause any significant harm. The FM 200 Piping Fire Extinguishing System is available in two sizes of polit cylinder - 4L and 8L - making it suitable for a wide range of properties. The system can be easily installed in any building, providing reliable and efficient fire protection for your property. Don't wait until it's too late. Invest in the FM 200 Piping Fire Extinguishing System today and enjoy the peace of mind that comes with knowing your property is protected from fires.

#### Applications:

This fire extinguishing system is designed for use in areas where traditional water-based fire suppression systems are not practical or effective. The FM 200 gas-based system is ideal for use in data centers, server rooms, medical facilities, museums, and other areas where water-based systems could cause damage to sensitive equipment or materials. The QMQ4.2/150N-RG model has a cylinder volume of 150L, and the cylinder capacity is customizable based on the needs of the application. The piping material is made of steel, which is durable and can withstand high pressures and temperatures. The activation method for the system is automatic, which means that it will activate on its own in the event of a fire. The polit cylinder is available in 4L or 8L sizes, depending on the needs of the application. Overall, the RUIGANG FM 200 Piping extinguishing system product is an ideal fire suppression system for a wide range of applications and scenarios. With its high efficiency and reliability, it can help to prevent fires and protect sensitive equipment and materials from damage. Whether you are looking for a fire extinguishing system for a data center, server room, medical facility, museum, or other area, this system is an excellent choice. For packaging, the company packs products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, they will make products a pallet. If you are interested in purchasing this fire extinguishing system, contact the company today to learn more about pricing, delivery, and other details.

#### Support and Services:

The FM 200 Piping extinguishing system is a high-performance fire suppression system designed to protect enclosed spaces from fire. The system uses FM 200 gas, a colorless, odorless, and electrically non-conductive agent that extinguishes fire quickly and efficiently. The piping system is made of high-quality materials that are resistant to corrosion and can withstand high pressure. Our technical support team is available to provide assistance with the installation, maintenance, and troubleshooting of the FM 200 Piping extinguishing system. We offer a comprehensive range of services, including:

[System design and layout](#)

[Equipment selection and procurement](#)

[Installation guidance and support](#)

[Testing and certification](#)

[Emergency repair and replacement](#)

Our team of experienced technicians and engineers are trained to provide prompt and reliable support to ensure the optimal performance of the FM 200 Piping extinguishing system. We are committed to delivering the highest level of customer satisfaction and safety.

#### Packing and Shipping:

Product Packaging:

The FM 200 Piping extinguishing system will be packaged in a sturdy cardboard box with foam inserts to protect the components during transportation. The box will be labeled with the product name, model number, and relevant safety warnings.

Shipping:

The product will be shipped via a reputable courier service to ensure timely and secure delivery. Customers will receive a tracking number to monitor the shipment's progress. Shipping fees will vary depending on the destination and delivery timeframe selected by the customer.

#### FAQ:

**Q: What is the brand name of the product?**

A: The brand name of the product is RUIGANG.

**Q: What is the model number of the product?**

A: The model number of the product is QMQ4.2/150N-RG.

**Q: Where is the product manufactured?**

A: The product is manufactured in Guangzhou, Guangdong, China.

**Q: What certifications does the product have?**

A: The product has CCC/ISO/CMA/CAL/CNAS certifications.

**Q: What is the minimum order quantity for the product?**

A: The minimum order quantity for the product is 1 set.

**Q: What is the price of the product?**

A: The price of the product is negotiable.

**Q: How is the product packaged?**

A: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.

**Q: What is the delivery time for the product?**

A: The delivery time for the product is 10~15 working days.  
**Q: What are the payment terms for the product?**  
A: The payment terms for the product are L/C, D/P, T/T, Western Union, Paypal, Credit card.  
**Q: What is the supply ability for the product?**  
A: The supply ability for the product is 3000 sets per week.
