

Enclosed Flooding FM 200 Extinguishing System Inert Gas Fire Suppression CCC ISO CMA

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: QMQ4.2/70N-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per week

Because we are dedicated,
we are professional.

Product Specification

- Nozzle Discharge Time: 10 Seconds
- Activation Method: Automatic
- Cylinder Capacity: Customizable
- Power: DC24V/1.5A
- Polit Cylinder: 4L Or 8L
- Pattern Of Extinguishing: Enclosed Flooding
- Extinguishing Concentration: 8~10%
- Agent: FM 200
- Working Temperature: 0°C~50°C
- Working Pressure: 4.2MPa
- Max.working Pressure: 5.3MPa

Because we are dedicated,
so we are professional.

Product Description

Automatic FM 200 Extinguishing System Customizable Cylinder Capacity 10s Discharge Time

Product Description:

The FM 200 Piping extinguishing system is designed to suppress fires quickly and efficiently, and it does so by releasing a clean, colorless, and odorless gas called FM 200. This gas is a Halon replacement that has been approved by the Environmental Protection Agency (EPA) as an effective fire suppression agent.

The FM 200 Piping extinguishing system is ideal for protecting a wide range of applications, including data centers, telecommunication rooms, archives, museums, and other high-value assets. This fire suppression system is designed to work in enclosed spaces, and it works by reducing the oxygen level in the protected area. This reduction in oxygen levels can effectively suppress the fire, preventing it from spreading and causing further damage.

The FM 200 Piping extinguishing system has a maximum working pressure of 5.3MPa, which allows it to deliver the FM 200 gas quickly and efficiently. This system has a filling density of $\leq 950 \text{ Kg/m}^3$, which ensures that the system can deliver the right amount of gas required to suppress the fire effectively. The cylinder of the FM 200 Piping extinguishing system has a volume of 70L and is made of steel, making it durable and long-lasting.

The FM 200 Piping extinguishing system is a reliable fire suppression system that is easy to install and maintain. This system is designed to provide 24/7 protection, and it comes with a range of features that make it one of the most reliable fire suppression systems available. In conclusion, if you are looking for a reliable and effective fire suppression system, the FM 200 Piping extinguishing system is an excellent choice. With its maximum working pressure of 5.3MPa, filling density of $\leq 950 \text{ Kg/m}^3$, cylinder volume of 70L, and steel cylinder material, this fire suppression system is built to last and can provide the protection you need. Don't wait until it's too late - invest in the FM 200 Piping extinguishing system today and protect your property and personnel from fire accidents.

Applications:

The system is made in Guangzhou, Guangdong, China, and it is certified by CCC, ISO, CMA, CAL, and CNAS. The product has a minimum order quantity of one set, and its price is negotiable.

The FM 200 Piping extinguishing system uses HFC-227ea as the primary agent, which is a colorless, odorless, and electrically non-conductive gas. The system is environmentally friendly, with zero Ozone Depletion Potential (ODP) and a Global Warming Potential (GWP) of 1. The system is highly effective, and it suppresses fires quickly, preventing re-ignition.

The system is a type of Inert Gas Fire Suppression System that works by displacing oxygen from the fire area, creating a fire-safe environment. The system's piping diameter is customizable, and its cylinder material is steel. The polit cylinder is either 4L or 8L, depending on the customer's requirements.

The FM 200 Piping extinguishing system is powered by DC24V/1.5A, and it has a supply ability of 3000 sets per week. The product comes with first polyfoam packaging and wooden cases, ensuring that it arrives at the customer's premises in perfect condition. If the product is too big or the customer requires a pallet, the company will make a pallet.

In conclusion, the RUIGANG QMQ4.2/70N-RG FM 200 Piping extinguishing system is a highly efficient and reliable fire suppression system that can be used in a wide range of applications. It is environmentally friendly, effective, and easy to use. Contact RUIGANG today for more information and to place an order.

Support and Services:

The FM 200 Piping extinguishing system is a highly effective fire suppression system used in a variety of commercial and industrial settings. Our technical support team is available to assist with any questions or issues related to the installation, maintenance, or operation of this product.

Our services include:

[System design and engineering](#)

[Installation guidance and support](#)

[Training and education](#)

[Maintenance and repair](#)

[Inspection and testing](#)

We are committed to providing our customers with the highest level of service and support. Contact us today to learn more about how we can assist with your FM 200 Piping extinguishing system.

Packing and Shipping:

Product Packaging:

[FM 200 Piping extinguishing system components](#)

[User manual and installation guide](#)

[Packaging box](#)

Shipping:

[Shipped in a sturdy cardboard box](#)

[Ships via ground shipping](#)

FAQ:

Here are the frequently asked questions and answers for the RUIGANG FM 200 Piping extinguishing system:

Q: What is the brand name of the FM 200 Piping extinguishing system?

A: The brand name of the FM 200 Piping extinguishing system is RUIGANG.

Q: What is the model number of the FM 200 Piping extinguishing system?

A: The model number of the FM 200 Piping extinguishing system is QMQ4.2/70N-RG.

Q: Where is the place of origin of the FM 200 Piping extinguishing system?

A: The FM 200 Piping extinguishing system is made in Guangzhou, Guangdong, China.

Q: What certifications does the FM 200 Piping extinguishing system have?

A: The FM 200 Piping extinguishing system has CCC, ISO, CMA, CAL, and CNAS certifications.

Q: What is the minimum order quantity for the FM 200 Piping extinguishing system?

A: The minimum order quantity for the FM 200 Piping extinguishing system is 1 set.

Q: What is the price of the FM 200 Piping extinguishing system?

A: The price of the FM 200 Piping extinguishing system is negotiable.

Q: How is the FM 200 Piping extinguishing system packaged?

A: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.

Q: What is the delivery time for the FM 200 Piping extinguishing system?

A: The delivery time for the FM 200 Piping extinguishing system is 10~15 working days.

Q: What are the payment terms for the FM 200 Piping extinguishing system?

A: The payment terms for the FM 200 Piping extinguishing system are L/C, D/P, T/T, Western Union, Paypal, and Credit card.

Q: What is the supply ability of the FM 200 Piping extinguishing system?

A: The supply ability of the FM 200 Piping extinguishing system is 3000 sets per week.
