- Cylinder Color: Red
- Installation Mode: Hanging
- Maximum Filling Density: 1Kg/L
- Installation: Easy To Install
- Cylinder Volume: 30L
- Working Temperature Range: 0°C~50°C
- Activating Temperature: 68°C
- Agent: HFC-227ea(FM200)
- Outside Diameter Of Cylinder: $\Phi 400\text{mm}$
- Height Of Cylinder: $475 \pm 20\text{mm}$
- Discharge Time: $\leq 10\text{s}$

Because we are dedicated,
so we are professional.

Product Description

Quick Response Red Hanging FM200 Fire Suppression System with Easy Installation

Product Description:

With a quick discharge time of ≤ 10 s, this automatic fire extinguisher is capable of suppressing flames quickly and effectively. In the event of a fire, the extinguisher will automatically activate, releasing the HFC-227ea extinguishing agent to extinguish the flames and prevent further damage.

The extinguisher's bright red color ensures it is easily visible, even in low light conditions, making it easy to locate in an emergency. The hanging gas fire extinguishing device is designed to blend in with any design aesthetic, making it a discreet and practical addition to any space.

The HFC-227ea hanging device is a non-toxic, eco-friendly solution that is safe to use around people and pets. This filler is a clean agent that leaves no residue and is safe to use on sensitive equipment such as computers, servers, and other electronics.

Overall, this hanging automatic fire extinguisher is a reliable and efficient solution for anyone looking to protect their home or business from the devastating effects of fire. With its quick discharge time, bright red color, and eco-friendly extinguishing agent, this extinguisher is a must-have for any space that requires fire protection.

Keywords: The hanging gas fire extinguishing device, The hanging gas fire extinguishing device, the HFC-227ea hanging extinguishing device

Technical Parameters:

Working Pressure	1.6MPa
Fire Extinguisher Color	Red
Maximum Protective Volume	54 Cubic Meter
Cylinder Color	Red
Discharge Time	≤ 10 s
Size	30L
Maximum Filling Density	1 Kg/L
Agent	HFC-227ea(FM200)
Activating Temperature	68°C
Installation Mode	Hanging

The hanging gas fire extinguishing device, also known as the FM200 Hanging System or FM200 Automatic Fire Extinguisher, has the above technical parameters.

Applications:

The RUIGANG XQQW30/1.6RG automatic fire extinguisher is the perfect solution for a variety of application occasions and scenarios. This extinguisher is designed to be a hanging extinguishing device that can easily be installed in a wide range of locations. The HFC-227ea hanging extinguishing device is a reliable and efficient way to protect your space from the dangers of fire.

One of the most common uses for the RUIGANG XQQW30/1.6RG is in commercial and industrial settings. These environments can be at high risk for fires due to the use of heavy machinery and equipment. The hanging fm200 automatic fire extinguisher is an ideal choice for these environments as it is designed to quickly and effectively extinguish fires before they can spread.

Another common use for the hanging automatic extinguisher is in residential settings. Many homes have fire hazards such as stoves, candles, and electrical equipment that can pose a risk of fire. The RUIGANG XQQW30/1.6RG is an excellent choice for homeowners who want to protect their property and loved ones from the dangers of fire.

The RUIGANG XQQW30/1.6RG is also a popular choice for use in public spaces such as schools, hospitals, and government buildings. These spaces have a responsibility to protect the safety and well-being of their occupants, and the hanging fm200 automatic fire extinguisher is an essential tool for achieving this goal.

In addition to its versatility in application, the RUIGANG XQQW30/1.6RG is also highly certified. It has received certifications from CCC, ISO, CMA, CAL, and CNAS, ensuring that it meets the highest standards for safety and quality. It is also available in a range of sizes, with the 10L cylinder color being red.

The RUIGANG XQQW30/1.6RG is easy to install and comes with a range of installation modes, including hanging. This makes it a convenient choice for spaces where a traditional fire extinguisher may not be suitable. It also has a working pressure of 1.6MPa and a maximum protective volume of 54 cubic meters.

If you are interested in purchasing the RUIGANG XQQW30/1.6RG, the minimum order quantity is 3 sets and the price is subject to

negotiation. It comes packaged in a plywood outer box with a bubble bag or paper, and the delivery time is 10-15 working days. Payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card, and the supply ability is 30,000 sets per month.
