Product Description

Superfine Dry Powder Fire Extinguishing System Electric Actuated Driving Mode

Product Description:

The Automatic Fire Extinguisher has a working pressure of 1.2MPa, which ensures that it can release an adequate amount of gas to put out the fire. The cylinder color of this extinguisher is red, making it easy to spot and identify in case of an emergency. The cylinder is 430mm high, which is a perfect size for hanging in any location, making it easy to access in case of a fire emergency.

One of the unique features of the Automatic Fire Extinguisher is its electric actuated driving mode. This mode ensures that the extinguisher can be activated remotely, which is especially useful in large industrial facilities, where reaching the fire manually may be dangerous or impossible. The hanging gas fire extinguishing device is designed to provide maximum protection with minimal effort, which is why it is an ideal choice for both residential and commercial buildings.

The Automatic Fire Extinguisher is designed to operate in a wide range of temperatures, making it suitable for use in different environments. Its working temperature range is between -10°C~+50°C, which ensures that it can function optimally in both extreme cold and hot temperatures. This feature makes it suitable for use in different locations, including refrigerated areas, server rooms, and other temperature-sensitive environments.

Overall, the Ultra-fine dry powder fire extinguisher is a reliable and efficient fire extinguisher that can help protect lives and property. Its unique features, including its electric actuated driving mode, make it easy to use and highly effective in fighting fires. Whether you are looking for a fire extinguisher for your home, office, or industrial facility, the Automatic Fire Extinguisher is the perfect choice.

Features:

Product Name: Automatic fire extinguisher

Installation mode: Hanging

Cylinder high: 430mm

Diameter: 270mm

Working Pressure: 1.2MPa

Discharge Time: ≤5s

Technical Parameters:

Fire Extinguisher Color:	Red
Capacity:	12L
Driving mode:	Electric Actuated
Maximum protective volume:	60 Cubic Meter
Residual rate:	≤5%
Model:	FZX-ACT6/1.2-RG
Working Pressure:	1.2MPa
Agent:	Superfine Dry Powder
Discharge Time:	≤5s
Type:	Stored-pressure Type

Applications:

The extinguisher has a cylinder height of 430mm and a capacity of 12L, making it suitable for use in various places, such as homes, offices, factories, warehouses, and other areas. The extinguishing agent used is superfine dry powder, which has a residual rate of less than or equal to 5%, making it safe and effective for use.

The Automatic Fire Extinguisher comes with the super fine dry powder hanging device, which makes it easy and convenient to install. It can be hung on the wall or ceiling, ensuring that it is within reach in case of a fire emergency. The extinguisher is also equipped with a pressure gauge that indicates the pressure level of the extinguisher, making it easy to monitor and maintain.

This Automatic Fire Extinguisher is certified by CCC/ISO/CMA/CAL/CNAS, ensuring that it meets the necessary quality standards. The product is available for purchase at a negotiable price, and the minimum order quantity is three sets. The packaging details include a plywood outer box with a bubble bag or paper, ensuring that the product is delivered safely.

The delivery time for the product is 10-15 working days, and the payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card. The supply ability of this product is 30000 sets per month, making it easily accessible to customers.

The Automatic Fire Extinguisher is suitable for use in various occasions and scenarios, such as homes, offices, factories, and warehouses. It is ideal for use in areas where there is a risk of fire, such as kitchens, electrical rooms, and storage areas. The product is designed to automatically detect and extinguish fires, making it an excellent addition to any fire prevention plan.

In conclusion, the RUIGANG Automatic Fire Extinguisher FZX-ACT6/1.2-RG is an excellent product for fire prevention, which is easy to install, safe to use, and effective in extinguishing fires. It is certified, available at a negotiable price, and suitable for use in various occasions and scenarios. Therefore, it is a must-have product for anyone who wants to ensure the safety of their property and themselves.

Support and Services:

Our Automatic fire extinguisher product is designed with advanced technology to detect and extinguish fires quickly and efficiently. Our team of technical support experts is available to provide assistance with installation, operation, and maintenance of the product. In addition to technical support, we offer a range of services to ensure the optimal performance of your Automatic fire extinguisher. These services include regular maintenance checks, refill and replacement of extinguishing agents, and on-site training for personnel. We are committed to providing the highest quality support and services to our customers. Please do not hesitate to contact us if you have any questions or concerns regarding your Automatic fire extinguisher.
