

## Steel FM 200 Cylinder With 2.5MPa Storage Pressure 450mm Internal Diameter 25 Bar Working Pressure

Our Product Introduction

for more products please visit us on [firefm200.com](http://firefm200.com)

### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: QMP180/2.5RG
- Minimum Order Quantity: 10 set
- Price: negotiation
- Packaging Details: Plywood case
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per week

Because we are dedicated,  
so we are professional.

### Product Specification

- Height Of Cylinder: 1326±10mm
- Capacity: 180
- Storage Pressure: 2.5MPa
- Internal Diameter: 450mm
- Cylinder Material: Steel
- Cylinder Wall Thickness: 6.1mm
- Service Life: 20 Years
- Working Pressure: 25 Bar
- Highlight: steel fm 200 cylinder, steel fm 200 cylinders, 2.5mpa fm 200 cylinder

## Product Description

Steel FM 200 Cylinder with 2.5MPa Storage Pressure 450mm Internal Diameter 25 Bar Working Pressure

### Product Description:

Our FM 200 Gas Cylinder is designed with a valve type that can be either manual or electric, depending on the needs of the user. This feature allows for flexibility in operating the cylinder, ensuring that it can be activated quickly and easily in the event of a fire. This gas cylinder has a long service life, with a guaranteed 20 years of reliable performance. This means that customers can have peace of mind knowing that their investment in our FM 200 Gas Cylinder is a wise one that will provide them with long-lasting protection for their property and assets.

The cylinder has a height of 1326±10mm, making it a compact and space-saving solution that can easily fit into various storage areas. Despite its compact size, this cylinder is capable of storing gas at a high pressure of 2.5MPa, ensuring that it can provide effective fire suppression when needed.

The cylinder wall thickness is 6.1mm, ensuring that it is strong and durable enough to withstand various environmental factors, including extreme temperatures and pressure changes. This makes our FM 200 Gas Cylinder a reliable and long-lasting solution that can provide customers with peace of mind.

Overall, our FM 200 Gas Cylinder is a high-quality and reliable fire suppression solution that can provide effective protection for medium to large-sized areas. With its long service life, compact size, high-pressure storage capacity, and strong cylinder wall thickness, it is an excellent investment for any property owner looking to protect their assets from the dangers of fire.

### Features:

Product Name: FM 200 Cylinders  
Gas Cylinder  
Steel Cylinder  
Gas Storage Fm200 Cylinder  
Working Pressure: 25 Bar  
Cylinder Wall Thickness: 6.1mm  
Internal Diameter: 450mm  
Capacity:180  
Storage Pressure: 2.5MPa

### Technical Parameters:

FM200 Cylinder Parameters	Values
Cylinder Wall Thickness	6.1mm
Service Life	20 Years
Cylinder Material	Steel
Internal Diameter	450mm
Cylinder Color	Red
Height of Cylinder	1326±10mm
Storage Pressure	2.5MPa
Capacity	180L Gas Cylinder
Valve Type	Manual Or Electric
Working Pressure	25 Bar

### Applications:

The FM200 cylinder is designed for non-corrosive FM200 fire suppression systems and is suitable for a wide range of application occasions and scenarios. It is ideal for use in data centers, telecommunication facilities, control rooms, museums, art galleries, and other locations that require the protection of valuable assets from fire.

The cylinder is available for purchase with a minimum order quantity of 10 sets, and the price is negotiable based on the order quantity. It is packaged in a plywood case and has a delivery time of 10~15 working days.

The RUIGANG QMP180/2.5RG FM200 cylinder has a supply ability of 3000 sets per week, and payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card.

### Packing and Shipping:

**Product Packaging:**

The FM 200 cylinders will be securely packed in a sturdy and durable cardboard box to prevent any damage during shipping. The cylinders will be wrapped in bubble wrap and placed in the box with sufficient padding to prevent movement and ensure that they arrive in perfect condition.

**Shipping:**

The FM 200 cylinders will be shipped via a reputable courier service to ensure fast and secure delivery. Customers will be provided with a tracking number to monitor the progress of their shipment. Shipping costs will be calculated based on the destination and weight of the order.
