

## 120L Steel FM 200 Fire Suppression Cylinder With 25 Bar Working Pressure

### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: QMP120/2.5RG
- Minimum Order Quantity: 10 set
- Price: negotiation
- Packaging Details: Plywood case
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per week

Because we are dedicated,  
so we are professional.

### Product Specification

- Cylinder Material: Steel
- Storage Pressure: 2.5MPa
- Service Life: 20 Years
- Height Of Cylinder: 1425±10mm
- Working Pressure: 25 Bar
- Capacity: 120
- Valve Type: Manual Or Electric
- Cylinder Wall Thickness: 4.7mm
- Highlight: 120l fire suppression system,  
120l fire suppression cylinder,  
steel fire suppression system

## Product Description

### 120L Steel FM 200 Fire Suppression Cylinder with 25 Bar Working Pressure and Manual or Electric Valve

#### Product Description:

The cylinder has a service life of 20 years, making it a reliable and long-lasting option for fire suppression systems. Its durable construction ensures that it can withstand regular use and remain functional for extended periods.

The FM200 Gas Cylinder has a storage pressure of 2.5MPa, allowing it to store a significant amount of FM200 gas. This high-pressure storage ensures that the gas is released quickly and effectively in the event of a fire, minimizing damage and protecting lives.

The cylinder's internal diameter is 350mm, providing ample space for the storage of FM200 gas. This diameter is carefully designed to allow for efficient storage and release of the gas, ensuring maximum effectiveness in suppressing fires.

The height of the cylinder is 1425±10mm, making it a compact and easy-to-store option for fire suppression systems. Its relatively small size ensures that it can be easily integrated into a variety of spaces, providing effective fire suppression without taking up too much room. Overall, the FM200 Gas Cylinder is an essential component of any non-corrosive FM200 fire suppression system. Its high capacity, long service life, and efficient storage and release of FM200 gas make it a reliable and effective option for protecting lives and property from the devastating effects of fire.

Keywords: FM200 Gas Cylinder, Cylinder, Cylinder For Non Corrosive FM200 Fire Suppression System

#### Features:

Product Name: FM 200 Cylinders

Capacity: 120

Cylinder Material: Steel Bottle

Cylinder For Non Corrosive FM200 Fire Suppression System

Storage Pressure: 2.5MPa

Service Life: 20 Years

Height of Cylinder: 1425±10mm

#### Technical Parameters:

Product Attribute	Value
Gas Cylinder	Gas Storage Fm200 Cylinder
Storage Pressure	2.5MPa
Height of Cylinder	1425±10mm
Cylinder Color	Red
Internal Diameter	350mm
Cylinder Wall Thickness	4.7mm
Cylinder Material	Steel
Working Pressure	25 Bar
Valve Type	Manual Or Electric
Capacity	120
Service Life	20 Years

#### Applications:

RUIGANG QMP120/2.5RG Gas Bottle is a high-quality cylinder for non-corrosive FM200 fire suppression system. It is manufactured in Guangzhou, Guangdong, China, and is certified by CCC/ISO/CMA/CAL/CNAS. This cylinder has a minimum order quantity of 10 sets and comes at a negotiable price. Its packaging details include a sturdy plywood case, and it has a delivery time of 10-15 working days. Payment options include L/C, D/P, T/T, Western Union, Paypal, and Credit Card. RUIGANG QMP120/2.5RG cylinder has a supply ability of 3000 sets per week.

The cylinder's red color makes it easy to identify and locate in an emergency. It has a service life of 20 years, making it a reliable and long-lasting solution for fire suppression. The cylinder's valve type can be manual or electric, providing flexibility in use. With a cylinder wall thickness of 4.7mm and made of high-quality steel, it is a welded gas cylinder that can withstand high pressure.

The RUIGANG QMP120/2.5RG Gas Bottle is suitable for various application occasions and scenarios. It is ideal for use in data centers, telecommunication rooms, archives, museums, and other areas where valuable assets and sensitive equipment require protection from fire. It can also be used in industrial settings such as chemical plants, power generation facilities, and oil and gas refineries.

Whether you need to protect a small server room or a large industrial complex, the RUIGANG QMP120/2.5RG Gas Bottle is a reliable and efficient solution for fire suppression. With its high-quality construction, long service life, and flexible valve options, it is an excellent choice for any fire suppression system.

### Packing and Shipping:

---

Product Packaging:

The FM 200 cylinders will be packaged in sturdy cardboard boxes.  
The cylinders will be securely placed in the boxes with proper padding to prevent any damage during transportation.  
The packaging will also contain necessary labels and instructions for the safe handling and usage of the cylinders.

Shipping:

The shipping of FM 200 cylinders will be done through a reliable courier service.  
The shipping charges will be calculated based on the weight and delivery location.  
The estimated delivery time will be communicated to the customer at the time of placing the order.  
The cylinders will be shipped only to locations where it is legal to possess and use FM 200 cylinders.
