

Steel 42 Bar Fm 200 Cylinder Gas Pressure 4.2MPa Height 1119mm

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: QMP90/4.2RG
- Minimum Order Quantity: 10 set
- Price: negotiation
- Packaging Details: Plywood case
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per week

Product Specification

- Cylinder Material: Steel
- Cylinder Wall Thickness: 6.3mm
- Working Pressure: 42 Bar
- Storage Pressure: 4.2MPa
- Service Life: 20 Years
- Cylinder Color: Red
- Valve Type: Manual Or Electric
- Height Of Cylinder: 1119±5mm
- Highlight: fm 200 cylinder gas pressure 4.2mpa, 42 bar fm 200 cylinder gas pressure, steel fm 200 gas cylinder

Product Description

Steel 42 Bar FM 200 Cylinder Red Color for 4.2MPa Storage Pressure Applications

Product Description:

The FM200 cylinders have a working pressure of 42 bar, which ensures that the gas is stored safely and securely. The cylinders come with a capacity of 90, which means that they can hold 90 liters of FM200 gas. With this capacity, you can be sure that the cylinder will last a long time before needing a refill.

The valve type of the FM200 cylinder is manual or electric, depending on your preference. The manual valve allows you to control the flow of gas manually, while the electric valve can be operated remotely, which is ideal for situations where the cylinder is located far away from the control room. Both valve types are designed to be easy to operate and provide a secure seal to prevent any gas leakage.

One of the standout features of the FM200 cylinder is its height. The cylinder stands at 1119±5mm tall, making it an ideal choice for spaces where height is limited. This height also makes it easy to transport the cylinder from one location to another, as it can fit easily into most vehicles.

When you choose the FM200 cylinder for your gas storage needs, you can be sure that you are getting a high-quality product that is designed to meet your needs. Whether you need a cylinder for your home or business, the FM200 cylinder is the perfect choice. So why wait? Order your FM200 cylinder today and experience the convenience and reliability of this top-quality gas storage cylinder.

Features:

Product Name: FM 200 Cylinders

Cylinder Wall Thickness: 6.3mm

Working Pressure: 42 Bar

Cylinder Color: Red

Capacity: 90

Internal Diameter: 350mm

Uses: Cylinder, Gas Bottle, Welded gas cylinder

Technical Parameters:

Cylinder Color	Red
Cylinder Material	Steel Bottle
Service Life	20 Years
Working Pressure	42 Bar
Internal Diameter	350mm
Height of Cylinder	1119±5mm
Storage Pressure	4.2MPa Cylinder
Valve Type	Manual Or Electric
Capacity	90
Cylinder Wall Thickness	6.3mm

Applications:

The RUIGANG QMP90/4.2RG FM200 Gas Cylinder is suitable for various occasions and scenarios, including:

Computer rooms and data centers

Telecommunication facilities

Industrial machinery rooms

Medical facilities

Museums and art galleries

The cylinder has a steel welded construction with a 6.3mm wall thickness and an internal diameter of 350mm. It is painted red for easy identification and has a capacity of 90 liters. The valve type can be manual or electric, depending on the user's preference and needs. With a supply ability of 3000 sets per week, the RUIGANG QMP90/4.2RG FM200 Gas Cylinder is a reliable and efficient solution for fire suppression systems. It is compatible with various FM200 gas suppression systems and can be easily installed and maintained.

Whether you need to protect your valuable assets or ensure the safety of your employees, the RUIGANG QMP90/4.2RG FM200 Gas Cylinder is a top-of-the-line product that can meet your needs. Order now and enjoy the peace of mind that comes with a high-quality fire suppression system.

Packing and Shipping:

Product Packaging:

FM 200 Cylinders will be packed in sturdy cardboard boxes to prevent damage during transportation.

Each cylinder will be placed in a polythene bag to protect it from dust and moisture.

A safety data sheet will be included in each package.

Shipping:

FM 200 Cylinders will be shipped via air or sea freight depending on the customer's preference.

The customer is responsible for arranging the shipping and paying any associated fees.

The cylinders will be shipped in compliance with international regulations for the transport of dangerous goods.

The estimated shipping time will be provided to the customer upon request.
