Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: CMDS12-1-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 3000 sets per month

Product Specification

- Volume: 9L
- Agent Type: FireFilm-KF
- Agent Discharge Time: 105 Seconds
- Activation Method: Automatic / Manual Operation
- Installation Requirements: Professional Installation Required
- Nozzle Number: 1~22
- Extinguishing Type: Edible Oil Fires
- Drive Gas Name: Nitrogen
- Number Of Bottle Groups: 1 Bottle
- Working Temperature Range: 6/10000 0°C~50°C
- Main Control Box Size: 480x600x225(mm)

Product Description

105 Sec FireFilm KF Kitchen Fire Suppression System for Edible Oil Fires

Product Description:

The Kitchen Fire Suppression System is powered by nitrogen, a safe and non-toxic drive gas that is environmentally friendly. With a working temperature range of 0~50°C, our system is capable of providing reliable protection in a variety of kitchen environments. The agent used in our Kitchen Fire Suppression System has a weight of 14.5kg and is stored at a pressure of 6 MPa (20°C). This ensures that the system is always ready to deploy at a moment's notice, providing maximum protection against fires. With an agent discharge time of 105 seconds, our Kitchen Fire Suppression System is capable of quickly extinguishing fires before they have a chance to spread and cause serious damage. This allows for minimal downtime and ensures that your kitchen can get back to full operation as soon as possible.

At our company, we are committed to providing our customers with the highest level of safety and protection. Our Kitchen Fire Suppression System is designed to meet the strictest safety standards and is fully compliant with all relevant regulations and guidelines. Investing in our Kitchen Fire Suppression System is a smart choice for any commercial kitchen owner or operator. With its advanced technology and reliable performance, our system provides peace of mind and ensures that your kitchen is always protected from the dangers of fire.

Features:

Product Name: Kitchen Fire Suppression System

Activation Method: Automatic / Manual Operation

Volume: 9L

Actuating Temperature: 183°C

Cylinder Material: Stainless Steel

Storage Pressure: 6 MPa(20°C)

This kitchen fire suppression device is known as the Kitchen Fire Suppression System. It has a 9L volume and can be activated through automatic or manual operation. The actuating temperature is set at 183°C and the cylinder is made of stainless steel. The storage pressure is at 6 MPa(20°C). This kitchen equipment fire suppression device is the perfect solution to prevent fires in your kitchen.

Technical Parameters:

Product Attribute	Kitchen Fire Suppression System (Single bottle)
Volume	9L
Weight of Agent	14.5kg
Actuating Temperature	183°C
Drive Gas Name	Nitrogen
Nozzle Number	1~22
Activation Method	Automatic / Manual Operation
Nozzle Type	Low Pressure
Agent Type	FireFilm-KF
Nitrogen Drive Cylinder	4MPa
Installation Requirements	Professional Installation Required

Applications:

Restaurants and cafes

Catering and banquet facilities

Food processing plants and factories

Hotel kitchens and dining areas

Fast food chains and franchises

With its CCC/ISO/CMA/CAL/CNAS certifications, the RUIGANG CMDS22-2-RG Kitchen Fire Suppression System is recognized for its high quality and reliability. It is available for purchase in both small and large quantities, with a minimum order quantity of 1 set and a supply ability of 3000 sets per month. The price is negotiable and payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card.

The system is designed for easy installation, but professional installation is required to ensure proper function and maximum safety. It can be activated either automatically or manually, depending on the situation. The extinguishing type is specifically designed for edible oil fires, which are common in commercial kitchens and can be difficult to put out with traditional fire suppression methods.

The RUIGANG CMDS22-2-RG Kitchen Fire Suppression System comes with a 3-year warranty, giving you peace of mind and assurance of its quality and durability. It is supplied with a Plywood outer box with bubble bag or paper packaging to ensure safe delivery. The

delivery time is typically 10-15 working days.

Lastly, the system is supported by the FireFilm-KF agent type, which is a trusted and reliable fire suppression agent used in commercial kitchens around the world. With its advanced features, high-quality design, and extensive protection capabilities, the RUIGANG CMDS22-2-RG Kitchen Fire Suppression System is the ideal choice for any commercial kitchen looking for reliable fire protection.
