

14MPa Stainless Steel Water Mist Fire Extinguishing System With Dual Jockey Pumps

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XSWBG784/14-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 300sets per month

Product Specification

- Type: Water Mist System
- Model: XSWBG784/14-RG
- Jockey Pumps (PC): 2
- Activation Method: Automatic Or Manual
- Application: Fire Suppression
- Rated Pressure: 14MPa
- Water Pumps (pc): 7+1(standby)
- Water Source: Water Supply
- Size: 3940mm*1100mm*2000mm
- Highlight: stainless steel water mist fire extinguishing system
water mist fire extinguishing system with dual jockey pumps

Product Description

14MPa Stainless Steel Water Mist System with Dual Jockey Pumps

Product Description:

Our High-pressure water mist system is designed to deliver a fine mist of water at high pressure to quickly and effectively suppress fires. It is the ideal solution for areas where traditional fire suppression methods are not suitable, such as data centers, museums, and hospitals, due to the potential for water damage. Our system uses a combination of water and air to create the mist, which cools the fire and reduces the oxygen supply, preventing it from spreading.

The pump material of our High-pressure water mist system is made of stainless steel, ensuring its durability and resistance to corrosion. This, combined with its rated flow of 784 L/min, makes it a reliable and effective solution for fire suppression.

Our High-pressure water mist system is easy to install and maintain, with minimal disruption to your space. It is a cost-effective solution that ensures the safety of your property and personnel.

Whether you need fire suppression for a small server room or a large museum, our High-pressure water mist system is the perfect solution. Its versatility and effectiveness make it the ideal choice for any application where traditional fire suppression methods are not suitable. Don't risk the safety of your property and personnel – choose our High-pressure water mist system for reliable fire suppression.

Features:

Product Name: High-pressure water mist system

Nozzle Material: Stainless Steel

Application: Fire Suppression

Power: 30x7 (KW)

Activation Method: Automatic Or Manual

Rated Pressure: 14MPa

Technical Parameters:

Nozzle Type	Mist Nozzle
Model	XSWBG784/14-RG
Type	High-pressure water mist system
Application	Fire Suppression
Pump Type	High-pressure Pump
Water pumps (pc)	7+1(standby)
Power	30x7(KW)
Rated Flow	784 L/min
Pump Material	Stainless Steel
Water Source	Water Supply

Applications:

The High-pressure water mist system is powerful, with a power output of 30x7 (KW) and a rated pressure of 14MPa. It has a rated flow of 784 L/min, making it capable of extinguishing fires quickly and effectively. The system uses stainless steel nozzles, which are durable and resistant to corrosion. The water pumps are also high-quality, with a 7+1 standby configuration to ensure that the system is always ready to use.

The High-pressure water mist system is suitable for a wide range of applications. It can be used in homes and apartments to protect against fires, as well as in commercial and industrial settings. It is particularly useful in areas where there are flammable materials or where fires are likely to occur. The system is also ideal for use in public buildings such as hospitals, schools, and government offices. The High-pressure water mist system is easy to install and use, making it a convenient choice for many customers. It comes with plywood outer box packaging with bubble bag or paper, ensuring that it arrives at the customer's location in good condition. The system can be delivered within 10-15 working days, and customers can choose from a variety of payment methods including L/C, D/P, T/T, Western Union, Paypal, and Credit card.

RUIGANG's High-pressure water mist system is a high-quality product that is both reliable and effective. With a supply ability of 300 sets per month, customers can be assured that they will receive their order in a timely manner. The minimum order quantity is 1 set, and the price can be negotiated depending on the specific needs of the customer. Whether you need a firefighting solution for your home or business, the High-pressure water mist system is an excellent choice.

Packing and Shipping:

Product Packaging:

This high-pressure water mist system product comes with the following packaging:

One high-pressure water mist pump

One water mist nozzle

One water tank

Installation manual and user guide

Shipping:

Our company provides free shipping for this product within the United States. For international orders, shipping costs will vary depending on the destination. We take great care in packaging and shipping our products to ensure they arrive in excellent condition.
