

High Pressure Stainless Misting System For Fire Suppression

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XSWBG672/14-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 300sets per month

Because we are dedicated,
so we are professional.

Product Specification

- Water Pumps (pc): 6+1 (standby)
- Activation Method: Automatic Or Manual
- Application: Fire Suppression
- Jockey Pumps (PC): 2
- Pump Material: Stainless Steel
- Rated Pressure: 14MPa
- Nozzle Material: Stainless Steel
- Water Source: Water Supply
- Size: 3940mm*1100mm*2000mm
- Highlight: fire suppression high pressure stainless misting system
,
high pressure stainless misting system Fire Suppression

Product Description

Pressure Stainless Steel Water Mist System for Effective Fire Suppression

Product Description:

Equipped with a high-pressure pump, this water mist system is capable of producing a powerful stream of water mist at a rated pressure of 14MPa, making it one of the most reliable fire suppression systems in the market today. Its water source comes from a reliable water supply, ensuring that there is always enough water to put out any fire that may occur.

One of the best things about this High-pressure water mist system is that it can be activated in two ways - either automatically or manually. This means that in the event of a fire, the system can be activated quickly and efficiently without the need for human intervention, thus ensuring that potential damage is minimized.

Designed as a water mist system, this product is highly effective in suppressing fires of various types, including those caused by electrical faults, flammable liquids, and solid combustibles. Its high-pressure pump ensures that the water mist is delivered at a high velocity, thereby ensuring that the fire is quickly extinguished without causing any damage to the surrounding area.

So if you're looking for a reliable and effective fire suppression system, look no further than the High-pressure water mist system. With its high-pressure pump, automatic/manual activation method, and water supply source, this product is sure to provide you with the peace of mind you need to keep your property safe from fire.

Features:

Product Name: High-pressure water mist system

Activation Method: Automatic Or Manual

Rated Flow: 672 L/min

Type: Water Mist System

Rated Pressure: 14MPa

Application: Fire Suppression

Technical Parameters:

Attribute	Value
Type	High-pressure water mist system
Model	XSWBG672/14-RG
Application	Fire Suppression
Rated Pressure	14MPa
Jockey pumps (PC)	2
Nozzle Type	Mist Nozzle
Water pumps (pc)6	+1 (standby)
Nozzle Material	Stainless Steel
Power	30x6(KW)
Pump Type	High-pressure Pump

Applications:

The High-pressure water mist system is an ideal choice for many different environments, including residential, commercial, and industrial settings. It is especially effective in areas where traditional sprinkler systems may not be practical or desirable, such as server rooms, museums, archives, and libraries. The system can be activated automatically or manually, depending on the user's preference and the specific application.

The High-pressure water mist system is designed to deliver a fine mist of water at high pressure, which helps to extinguish fires quickly and efficiently. It is capable of achieving a rated pressure of 14MPa, thanks to its powerful jockey pumps (2 PC) and 30x6 KW power. This makes it one of the most effective fire suppression systems available today.

Whether you are looking for a reliable and effective fire suppression system for your home or your business, the High-pressure water mist system from RUIGANG is the perfect choice. With its high-quality construction, certification, and supply ability of 300 sets per month, you can rest assured that you are getting a product that is both reliable and effective.

Payment terms for the High-pressure water mist system include L/C, D/P, T/T, Western Union, Paypal, and Credit card. Contact us today to learn more about this innovative fire suppression system and how it can benefit your home or business.

Packing and Shipping:

Product Packaging:

The high-pressure water mist system will be securely packaged to prevent any damage during shipping. The components will be wrapped

in protective material and placed in a sturdy cardboard box.

Shipping:

The high-pressure water mist system will be shipped via a reputable courier service to ensure safe and timely delivery. Customers will receive a tracking number via email to monitor their shipment. Delivery times may vary depending on the destination.
