

14MPa 30x5kW High Pressure Water Mist Fire Suppression System 560L/Min

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XSWBG560/14-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 300sets per month

Because we are dedicated,
so we are professional.

Product Specification

- Type: Water Mist System
- Pump Material: Stainless Steel
- Rated Flow: 560L/min
- Water Pumps (pc): 5+1(standby)
- Application: Fire Suppression
- Power: 30x5kW
- Rated Pressure: 14MPa
- Nozzle Material: Stainless Steel
- Size: 3420mm*1100mm*2000mm
- Highlight: **high pressure water mist fire suppression system 560L/min**
,
14MPa high pressure water mist fire suppression system

Product Description

Stainless Steel Pressure Water Mist System - 30x5KW Power 1 Standby Pump 560 L/min Flow 14MPa Pressure

Product Description:

With this system, you can rest assured that your property is protected at all times. It is connected to a reliable water supply, ensuring that it is always ready to be activated either manually or automatically. Its activation method is flexible, so you can choose the one that suits your needs best.

The High-pressure water mist system is equipped with a high-pressure pump that is capable of generating a powerful mist that can quickly extinguish fires. This pump is designed to be durable and long-lasting, ensuring that the system can perform optimally for years to come.

Moreover, this system comes with two jockey pumps that work in tandem with the high-pressure pump to ensure that the system is always ready for use. The jockey pumps keep the water pressure in the system at a constant level, ensuring that it is always ready to be used in case of a fire.

The XSWBG560/14-RG High-pressure water mist system is a reliable and effective fire protection solution that is suitable for a wide range of applications. It can be used in commercial, industrial, and residential settings, providing comprehensive fire protection to properties of all sizes.

Don't wait until it's too late. Protect your property with the High-pressure water mist system today and get peace of mind knowing that you are always prepared for any fire emergency.

Features:

Product Name: High-pressure water mist system

Rated Flow: 560 L/min

Jockey pumps (PC): 2

Nozzle Type: Mist Nozzle

Power: 30x5 (KW)

Pump Material: Stainless Steel

Technical Parameters:

Product Attribute	Technical Parameters
Product Type	High-pressure water mist system
Water Pumps (pc)	5+1 (standby)
Nozzle Type	Mist nozzle
Pump Type	High-pressure pump
Jockey pumps (PC)	2
Water Source	Water supply
Activation Method	Automatic or manual
Pump Material	Stainless steel
Power	30x5 (KW)
Rated Pressure	14MPa

Applications:

A high-pressure water mist system is a type of fire suppression system that uses high-pressure water mist to extinguish fires. The RUIGANG XSWBG560/14-RG high-pressure water mist system is a top-of-the-line fire suppression solution that is designed to meet the needs of various applications.

The RUIGANG XSWBG560/14-RG high-pressure water mist system is suitable for use in a variety of settings, including commercial buildings, data centers, hospitals, hotels, museums, and more. This system is particularly effective in areas where traditional fire suppression systems may not be suitable, such as in areas with sensitive equipment or where water damage needs to be minimized.

The RUIGANG XSWBG560/14-RG high-pressure water mist system is certified by CCC, ISO, CMA, CAL, and CNAS, ensuring that it meets the highest standards of quality and safety. This system has a minimum order quantity of 1 set, with price and delivery time available upon negotiation.

The RUIGANG XSWBG560/14-RG high-pressure water mist system has a rated flow of 560 L/min and a rated pressure of 14MPa. It is a jockey pump system, with two PC pumps included. This system is designed to be easy to install and maintain, with a supply ability of 300 sets per month.

The RUIGANG XSWBG560/14-RG high-pressure water mist system is packaged in a plywood outer box with bubble bag or paper, ensuring that it arrives at its destination in perfect condition. Payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card, making it easy for customers to purchase this top-of-the-line fire suppression system.

Packing and Shipping:

Product Packaging:
High-pressure water mist system
Installation manual
Mounting hardware
Shipping:
Shipping method: [Land Carriage](#)
Estimated delivery time: 10-15 business days
