

## Mist Nozzle Water Spray Fire Suppression System 448L/Min

Our Product Introduction

for more products please visit us on [firefm200.com](http://firefm200.com)

### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XSWBG448/14-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 300sets per month

Because we are dedicated,  
so we are professional.

### Product Specification

- Pump Type: High-pressure Pump
- Rated Flow: 448L/min
- Model: XSWBG448/14-RG
- Jockey Pumps (PC): 2
- Type: Water Mist System
- Nozzle Type: Mist Nozzle
- Water Pumps (pc): 4+1(standby)
- Rated Pressure: 14MPa
- Size: 3420mm\*1100mm\*2000mm
- Jockey Pumps: 2 PC
- Highlight: water spray fire suppression system 448l/min,  
mist nozzle water spray fire suppression  
system  
448l/min water spray fire fighting system

## Product Description

High-pressure water mist system for effective fire suppression in industrial settings

### Product Description:

The High-pressure water mist system comes equipped with two water pumps, one of which is on standby for added security and peace of mind. This ensures that the system is always prepared to handle any fire emergency that may arise. The system's stainless steel nozzles are designed to provide a fine mist of water that effectively suppresses fires without causing damage to surrounding areas. This makes the High-pressure water mist system ideal for use in commercial, industrial, and residential settings.

With a power output of 30x4 (KW), our High-pressure water mist system is capable of quickly and effectively suppressing fires of all sizes. This powerful system can cover large areas with ease, making it an ideal choice for warehouses, factories, and other industrial facilities. Additionally, its compact design allows for easy installation and maintenance, making it a cost-effective and practical solution for any fire protection needs.

Whether you're looking for a reliable fire suppression system for your business or home, our High-pressure water mist system is the perfect choice. Its advanced technology and high-quality components ensure that it will provide years of reliable and efficient service, keeping your property and loved ones safe from the dangers of fire. So why wait? Invest in the best - choose our High-pressure water mist system today!

### Features:

Product Name: High-pressure water mist system

Pump Type: High-pressure Pump

Model: XSWBG448/14-RG

Rated Pressure: 14MPa

Activation Method: Automatic Or Manual

Jockey pumps (PC): 2

### Technical Parameters:

Product Attribute	Value
Type	High-pressure water mist system
Jockey pumps (PC)	2
Water pumps (PC)	4+1 (standby)
Rated Flow	448 L/min
Nozzle Type	Mist Nozzle
Nozzle Material	Stainless Steel
Rated Pressure	14 MPa
Power	30x4(KW)
Activation Method	Automatic or Manual
Application	Fire Suppression

### Applications:

The XSWBG448/14-RG high-pressure water mist system has a power of 30x4 (KW) and is made of stainless steel, which ensures durability and longevity. The water source for this system is a water supply, and it comes with 4+1 (standby) water pumps. This system is designed to deliver a high-pressure water mist that can be used in various applications.

The high-pressure water mist system is perfect for use in industrial settings, such as factories and warehouses. It can be used to extinguish fires, cool down machinery, and clean equipment. The system's high-pressure mist is also effective in suppressing dust and other airborne particles, which makes it ideal for use in construction sites and mining operations.

In addition to industrial settings, the high-pressure water mist system is also suitable for use in commercial and residential settings. It can be used to cool down outdoor areas, such as patios and decks, or to create a misting effect for aesthetic purposes. The system can also be used to extinguish fires in homes and buildings, providing an added layer of safety and protection.

Overall, the XSWBG448/14-RG high-pressure water mist system is a versatile and reliable product that can be used in a variety of applications and scenarios. Its high-pressure mist is effective in extinguishing fires, suppressing dust, and cooling down equipment and outdoor areas. With its durable stainless steel construction and reliable water pumps, this system is a great investment for anyone looking for a high-quality misting system.

### Packing and Shipping:

**Product Packaging:**

High-pressure water mist system unit  
Instruction manual  
Installation hardware  
**Shipping:**  
Ships within 15 business days  
International shipping available at an additional cost
