

XSWBG224/14-RG 14MPa Water Spray Fire Fighting System With 224L/Min Rated Flow

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XSWBG224/14-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union, Paypal, Credit card
- Supply Ability: 300sets per month

Because we are dedicated,
so we are professional.

Product Specification

- Nozzle Type: Mist Nozzle
- Model: XSWBG224/14-RG
- Water Source: Water Supply
- Application: Fire Suppression
- Water Pumps (pc): 2+1(standby)
- Rated Pressure: 14MPa
- Rated Flow: 224 L/min
- Nozzle Material: Stainless Steel
- Size: 2900mm*1100mm*2000mm
- Jockey Pumps: 2 PC
- Powe (KW): 30*2
- Highlight: 14mpa water spray fire fighting system,
14mpa water spray fire suppression system,

Product Description

XSWBG224/14-RG 14MPa Water Supply Mist System with 224 L/min Rated Flow

Product Description:

The High-pressure water mist system is designed as a water mist system, which means it is equipped with a mist nozzle that disperses water at a high pressure, creating a fine mist that is effective at suppressing fires. This mist nozzle is specially designed to ensure that water droplets are distributed evenly and finely, maximizing the system's efficiency.

This system is equipped with two water pumps, one of which is a standby pump, ensuring that the system is always ready to go when needed. The Model XSWBG224/14-RG is a reliable and durable option, designed to withstand the demands of any setting.

With its mist nozzle and high-pressure water dispersal, this system is capable of quickly suppressing fires and cooling areas down in the event of a fire. This makes it an ideal choice for areas where fires are more likely to occur, such as kitchens, industrial areas, and commercial spaces.

Overall, the High-pressure water mist system is a cost-effective and reliable option for your fire suppression and cooling needs. Its use of water as a source makes it a convenient option for any setting, and its mist nozzle ensures maximum efficiency in suppressing fires quickly and effectively. Choose the High-pressure water mist system for your peace of mind and safety.

Features:

Product Name: High-pressure water mist system

Power: 30x2 (KW)

Water pumps (pc): 2+1 (standby)

Activation Method: Automatic Or Manual

Nozzle Material: Stainless Steel

Rated Flow: 224 L/min

Technical Parameters:

Product Attribute	Value
Jockey pumps (PC)	2
Pump Type	High-pressure Pump
Water Source	Water Supply
Rated Flow	224 L/min
Activation Method	Automatic Or Manual
Power	30x2 (KW)
Pump Material	Stainless Steel
Rated Pressure	14MPa
Nozzle Type	Mist Nozzle
Model	XSWBG224/14-RG

Applications:

Whether you need to protect a commercial building, industrial facility, or residential property, this High-pressure water mist system is the perfect solution. With its durable stainless steel pump and nozzle materials, it is built to withstand even the toughest environments and deliver reliable performance when you need it most.

One of the best things about this High-pressure water mist system is its versatility. It can be activated either automatically or manually, making it a great choice for a wide range of applications. Whether you need to protect a small space or a large area, this system is up to the task.

Some of the most common application occasions for this High-pressure water mist system include:

Commercial buildings, such as offices, hotels, and retail stores

Industrial facilities, such as factories and warehouses

Public buildings, such as schools and hospitals

In all of these scenarios, the High-pressure water mist system is an effective way to protect people and property from the dangers of fire. With its powerful water mist, it can quickly extinguish flames and prevent them from spreading, minimizing damage and saving lives.

When you order this product, you can expect to receive it in a sturdy plywood outer box with bubble bag or paper packaging. Delivery time is typically 10-15 working days, and payment terms include L/C, D/P, T/T, Western Union, Paypal, and Credit card. The minimum order quantity is just one set, and supply ability is 300 sets per month.

Overall, if you're looking for a reliable, high-quality fire suppression solution, look no further than RUIGANG's High-pressure water mist system. Whether you need to protect a small office or a large industrial facility, this system is up to the task.

Packing and Shipping:

Product Packaging:
High-pressure water mist system
Instruction manual
Mounting hardware
Shipping:
International shipping available at an additional cost
Shipped in secure packaging to ensure safe delivery
