Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ40/2.5RG GQQ70/2.5RG
GQQ90/2.5RG GQQ100/2.5RG
GQQ120/2.5RG GQQ150/2.5RG
GQQ180/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood Outer Box With Bubble Bag Or Paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T,
- Supply Ability: 30000 sets / month

Because we are dedicated,
so we are professional.

Product Specification

- Spray Time: 10 Seconds
- Cabinet Material: Steel
- Max Working Pressure: 4.2MPa
- Working Pressure: 2.5MPa
- Installation: Easy To Install
- Electrical Requirements: 220V, 50Hz
- Extinguishing Agent: FM200
- Cabinet Color: Red
- Highlight: **FM200 cabinet fire suppression system,
Data Centres Cabinet Fire Suppression System**

Because we are dedicated,
so we are professional.

Product Description

Product Description:

With a discharge pressure of 5.6 ± 0.28 MPa, this FM200 cabinet fire extinguishing system is a powerful solution for protecting valuable assets from fire damage. It is easy to install, making it a convenient and practical choice for businesses of all sizes. The electrical requirements for this system are 220V, 50Hz, ensuring compatibility with most standard electrical systems.

The FM200 cabinet fire extinguishing system has a maximum working pressure of 4.2MPa, providing ample pressure for extinguishing fires quickly and effectively. It is designed to operate within a working temperature range of $0^{\circ}\text{C} \sim 50^{\circ}\text{C}$, making it suitable for use in a variety of environments and conditions.

Overall, the FM200 cabinet fire extinguishing system is a highly effective and reliable solution for protecting enclosed spaces from fire damage. Its ease of installation and compatibility with standard electrical systems make it a practical choice for businesses of all sizes. If you're looking for a powerful and efficient fire suppression system, the FM200 cabinet fire extinguishing system is definitely worth considering.

Applications:

The FM200 Automatic fire extinguishing system is an effective solution to protect important equipment and prevent fire hazards. It is ideal for use in various industrial settings such as power stations, data centers, telecommunication facilities, and other important areas that require protection from fire. The FM200 extinguishing agent is non-toxic, non-corrosive, and safe for humans and the environment.

The manual and automatic activation methods make it easy for firefighters to use the equipment when needed. The extinguishing agent is released when the fire is detected either by a manual operation or through a fire detection system.

RUIGANG's FM200 cabinet fire extinguishing system has been certified by CCC/ISO9001/ISO45001/ISO14001/ISO10012, ensuring that it meets the highest standards of quality, safety, and environmental protection. The minimum order quantity is 1 set, and the price is negotiable. The products are packed with first polyfoam and then wooden cases, or a pallet if required by the customer. The delivery time is 10~15 working days, and the payment terms accepted are L/C and T/T. The supply ability is 30000 sets/month.

Overall, RUIGANG's FM200 cabinet fire extinguishing system is an essential firefighters equipment with a reliable and efficient firefighting performance. It is suitable for various industrial applications and provides an effective solution to prevent fire hazards.

Support and Services:

The FM200 Cabinet Fire Extinguishing System is a highly effective fire suppression system designed for use in enclosed spaces. The system utilizes FM200 gas to extinguish fires quickly, minimizing damage and downtime. Our technical support team is available to assist with any questions or concerns regarding installation, operation, and maintenance of the system.

We also offer a variety of services to ensure the optimal performance of your FM200 Cabinet Fire Extinguishing System. These services include:

- System design and engineering
- Installation and commissioning
- Regular maintenance and inspections
- Training for personnel
- Emergency service and repairs

Our team of experienced professionals is committed to providing the highest level of support and service to our customers. Contact us today to learn more about our FM200 Cabinet Fire Extinguishing System and how we can assist you.

Packing and Shipping:
