### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ40/2.5RG GQQ70/2.5RG  
GQQ90/2.5RG GQQ100/2.5RG  
GQQ120/2.5RG GQQ150/2.5RG  
GQQ180/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: wooden outer box with bubble bag or pape
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T
- Supply Ability: 30000 sets / month

### Product Specification

- Alarm System: Excluded
- Spray Time: 10 Seconds
- Installation: Easy To Install
- Power: DC24V/1.6A
- Fire Protection Level: Pattern Of Extinguishing
- Max Working Pressure: 4.2MPa
- Working Temperature: 0°C ~ 50°C
- Zone Management: Single
- Filling Density: 1120kg/m<sup>3</sup>
- Working Pressure: 2.5Mpa
- Activation Method: Manual/Automatic/Mechanical Emergency Start-up
- Highlight: FM200 Cabinet Fire Extinguishing System ,

## Product Description

### Product Description:

The FM200 Cabinet Fire Extinguishing System is available in various cabinet sizes, ranging from 40kg to 180kg, to meet your specific fire suppression needs. The cabinet is painted in a bright red color for easy visibility and quick access during an emergency.

The system is designed to operate at a working pressure of 2.5MPa, ensuring that the FM200 suppression system is deployed quickly and effectively to extinguish the fire. The FM200 clean agent fire suppression system is a highly effective fire suppression solution that is non-toxic, non-corrosive, and safe for use in occupied areas.

The FM200 Cabinet Fire Extinguishing System is designed for single-zone management, making it easy to install and operate. The cabinet is equipped with a control panel that allows you to monitor the status of the system and activate it in case of a fire emergency. The electrical requirements for the FM200 Cabinet Fire Extinguishing System are 220V and 50Hz, ensuring that it can be easily integrated into your existing electrical system. The system is also equipped with an automatic discharge valve that releases the FM200 suppression agent automatically in case of a fire emergency.

In summary, the FM200 Cabinet Fire Extinguishing System is a highly effective fire suppression solution that is designed to protect your valuable assets from fire damage. With its FM200 clean agent fire suppression system, single-zone management, and easy-to-use control panel, this system is an excellent choice for any business or organization that wants to ensure the safety of its employees and assets.

### Applications:

The RUIGANG FM200 Cabinet Fire Extinguishing System is made from high-quality steel material, which ensures that it is durable and long-lasting. It is also easy to install, which makes it an ideal choice for those who are looking for a hassle-free solution to fire protection. The system has a working temperature range of 0°C ~ 50°C, which makes it suitable for use in a wide variety of environments.

This product is certified by CCC/ISO9001/ISO45001/ISO14001/ISO10012, which means that it meets the highest standards of quality and safety. The FM200 extinguishing system is also pollution-free, which makes it an environmentally friendly choice for those who are looking for a sustainable solution to fire protection.

The RUIGANG FM200 Cabinet Fire Extinguishing System is available in different models, including GQQ40/2.5RG, GQQ70/2.5RG, GQQ90/2.5RG, GQQ100/2.5RG, GQQ120/2.5RG, GQQ150/2.5RG, GQQ180/2.5RG. The cabinet capacity ranges from 40kg to 180kg, which means that customers can choose the model that best suits their needs.

The minimum order quantity for this product is 1 set, and the price is negotiable. The packaging details include first polyfoam and then wooden cases. If the products are too big or customers require a pallet for products, we will make products a pallet. The delivery time is 10~15 working days, and the payment terms are L/C and T/T. The supply ability is 30000 sets per month, which means that customers can rely on this product to be available when they need it most.

In summary, the RUIGANG FM200 Cabinet Fire Extinguishing System is a high-quality, efficient, and environmentally friendly solution for fire protection. It is suitable for use in various occasions and scenarios, and it is easy to install and maintain. Customers can choose from a range of models to find the one that best suits their needs, and they can rely on the product to be available when they need it most.

### Support and Services:

The FM200 Cabinet Fire Extinguishing System is a high-performance fire suppression system designed to protect valuable equipment and sensitive electronic data housed in cabinets. It is a pre-engineered system that can be easily installed and maintained. The system uses FM200, a clean and non-toxic agent that extinguishes fire by removing heat and interrupting the chemical chain reaction.

Our product technical support and services include:

System design and engineering

Guide installation and debugging

Training and education for end-users and maintenance personnel

24/7 technical support

System upgrades and retrofits

We are committed to providing our customers with the highest level of support and services to ensure the reliable and efficient operation of their fire suppression systems.
