Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ40/2.5RG GQQ70/2.5RG
GQQ90/2.5RG GQQ100/2.5RG
GQQ120/2.5RG GQQ150/2.5RG
GQQ180/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood outer box with bubble bag or paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T
- Supply Ability: 30000 sets / month

Because we are dedicated,
so we are professional.

Product Specification

- Fire Protection Level: Pattern Of Extinguishing
- Activation Method: Manual/Automatic
- Extinguishing Agent: FM200
- Discharge Pressure: 5.6 ± 0.28 MPa
- Max Working Pressure: 4.2 MPa
- Working Pressure: 2.5 MPa
- Cabinet Capacity: 40kg~180kg
- Working Temperature: $0^{\circ}\text{C} \sim 50^{\circ}\text{C}$
- Filling Density: 1120kg/m^3
- Highlight: FM200 Cabinet Fire Extinguishing System ,
Automatic Cabinet Fire Extinguishing System ,
Electrical Equipment Cabinet Fire Extinguishing
System

Product Description

Product Description:

The FM200 Cabinet Fire Extinguishing System is the perfect solution for areas that require a clean agent extinguishing system. This system is designed to protect your electronic and data processing equipment, as well as other high-value assets, from fire damage. With a DC24V/1.6A power supply, this system is capable of extinguishing fires in cabinets with a capacity ranging from 40kg to 180kg. The system is also equipped with a discharge pressure of 5.6 ± 0.28 MPa, ensuring that the extinguishing agent is delivered efficiently and effectively.

In addition to its powerful extinguishing capabilities, the FM200 Cabinet Fire Extinguishing System is easy to install and operate. It can be activated either manually or automatically, depending on your specific needs.

This system also meets all electrical requirements, with a voltage of 220V and a frequency of 50Hz. It is a reliable and efficient fire safety equipment that you can count on to protect your valuable assets from fire damage.

In summary, the FM200 Cabinet Fire Extinguishing System is an HFC-227ea FM200 system that is perfect for areas that require a clean agent extinguishing system. With its powerful extinguishing capabilities, easy installation and operation, and reliable performance, this system is an ideal choice for protecting your high-value assets from fire damage.

Applications:

The FM200 Cabinet Fire Extinguishing System is suitable for a range of scenarios, including computer rooms, archives, museums, libraries, and other places that contain valuable items. It is also effective in power distribution rooms, communication rooms, and other facilities that require fire protection. The system is easy to install and comes with a steel cabinet in the color red. The cabinet is designed to protect the system from damage and ensure its longevity.

The FM200 Cabinet Fire Extinguishing System's pattern of extinguishing provides effective fire protection. The system operates on DC24V/1.6A power and can supply up to 30000 sets per month. The minimum order quantity is one set, and the price is negotiable. The packaging is done with first polyfoam and then wooden cases. For larger products, a pallet is provided. Delivery time is approximately 10-15 working days. Payment terms are L/C and T/T.

Overall, the RUIGANG FM200 Cabinet Fire Extinguishing System is an excellent choice for those looking for a reliable fire protection solution. Its versatility and effectiveness make it ideal for a range of scenarios, and its ease of installation and durable design ensure that it will last for years to come.

Support and Services:

The FM200 Cabinet Fire Extinguishing System is a high-performance fire suppression system designed specifically for use in data centers, server rooms, and other critical facilities. This product is designed to quickly and effectively extinguish fires in enclosed spaces, protecting your valuable equipment and minimizing downtime. Our technical support team is available 24/7 to assist with any questions or issues you may have with your FM200 system. We also offer a range of services to ensure that your system is operating at peak

efficiency, including installation, maintenance, and training programs.
