

40kg-180kg Capacity 2.5MPa Working Pressure FM200 Cabinet Fire Extinguishing System

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CCC/ISO9001/ISO45001/ISO14001/ISO10012
- Model Number: GQQ40/2.5RG GQQ70/2.5RG
GQQ90/2.5RG GQQ100/2.5RG
GQQ120/2.5RG GQQ150/2.5RG
GQQ180/2.5RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: Plywood Outer Box With Bubble Bag Or Paper
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T
- Supply Ability: 30000 sets / month

Because we are dedicated,
so we are professional.

Product Specification

- Alarm System: Excluded
- Spray Time: 10 Seconds
- Fire Protection Level: Pattern Of Extinguishing
- Cabinet Capacity: 40kg~180kg
- Zone Management: Single
- Extinguishing Agent: FM200
- Working Pressure: 2.5MPa
- Cabinet Material: Steel
- Highlight: **FM200 Cabinet Fire Extinguishing System ,
2.5MPa FM200 Cabinet Fire Extinguishing
System**

Product Description

Product Description:

The FM200 Cabinet Fire Extinguishing System is a powerful and easy-to-install fire suppression solution that can provide rapid response to fire outbreaks in server rooms, data centers, control rooms, and other enclosed spaces. The cabinet comes in a striking red color that makes it easy to spot in an emergency situation.

The FM200 Cabinet Fire Extinguishing System has a cabinet capacity of 40kg~180kg and can handle a maximum working pressure of 4.2MPa. This makes it suitable for use in a wide range of applications, from small server rooms to large data centers. The system is designed to quickly extinguish fires by flooding the enclosed space with FM200 gas, a clean, colorless, and odorless agent that leaves no residue or damage to equipment.

The FM200 Cabinet Fire Extinguishing System is highly effective in suppressing Class A, B, and C fires. This means that it can handle fires caused by ordinary combustibles, flammable liquids, and electrical equipment. The system uses a pattern of extinguishing that is designed to quickly and effectively suppress the fire, preventing it from spreading and causing further damage.

Installation of the FM200 Cabinet Fire Extinguishing System is easy and straightforward. The system can be installed by a qualified technician in a matter of hours, ensuring that your valuable assets are protected from fire hazards as soon as possible. The system is also easy to maintain, with regular inspections and servicing recommended to ensure that it is always in top working condition.

Overall, the FM200 Cabinet Fire Extinguishing System is a reliable, effective, and easy-to-install fire suppression solution that can protect your valuable assets from fire hazards. With its high capacity, maximum working pressure, and pattern of extinguishing, this system is a top choice for those who need to ensure that their enclosed spaces are protected from fire hazards. So why wait? Invest in the FM200 Cabinet Fire Extinguishing System today and enjoy peace of mind knowing that your assets are protected by one of the best FM-200 fire suppression systems on the market.

Applications:

The FM200 Cabinet Fire Extinguishing System is certified by CCC, ISO9001, ISO45001, ISO14001, and ISO10012, ensuring that it meets the highest standards of quality and safety. The system operates at a working pressure of 2.5MPa and requires an electrical input of 220V, 50Hz to function properly. The extinguishing agent used in the system is FM200, a clean and effective gas that quickly suppresses fire without causing damage to sensitive equipment or leaving residue behind.

This FM200 cabinet fire extinguishing system is designed to be used in a variety of different applications, such as:

Server rooms and data centers

Control rooms and process control areas

Museums and art galleries

Telecommunications facilities

Medical facilities and laboratories

The system is particularly effective in enclosed spaces where traditional water-based fire suppression systems are not suitable, such as areas with high-value assets that could be damaged by water or sensitive equipment that could be destroyed by the residue left behind by foam-based fire suppression systems.

The FM200 Cabinet Fire Extinguishing System is available for purchase with a minimum order quantity of 1 set, and the price is negotiable depending on the specific needs of the customer. Packaging details include first polyfoam and then wooden cases, and for larger products, a pallet will be used. Delivery time is typically 10-15 working days, and payment terms include L/C and T/T. The system has a supply ability of 30,000 sets per month and operates in temperatures ranging from 0°C to 50°C.

Overall, the FM200 Cabinet Fire Extinguishing System is a reliable and effective solution for protecting enclosed spaces from fire. With its high-quality construction, certification, and extinguishing agent, this fm-200 fire suppression system is an excellent choice for customers looking for a safe and effective way to protect their valuable assets from fire.

Support and Services:

The FM200 Cabinet Fire Extinguishing System is a highly efficient fire suppression system that is specifically designed for use in enclosed areas, such as electrical cabinets, server rooms, and other sensitive environments. The system is designed to quickly extinguish fires using an environmentally friendly gas agent that is safe for humans and electronics.

Our technical support team is available to answer any questions you may have about the installation, operation, and maintenance of the FM200 Cabinet Fire Extinguishing System. We can help you design the system to meet your specific needs and provide guidance on the best practices for installation and regular maintenance.

In addition to our technical support services, we also offer a range of other services to ensure that your FM200 Cabinet Fire Extinguishing System is always ready to protect your valuable equipment. These services include:

Regular system inspections

System recharging and refilling

System upgrades and modifications

24/7 emergency service

With our comprehensive support and services, you can be confident that your FM200 Cabinet Fire Extinguishing System will provide reliable and effective protection for your valuable equipment.
