

70 Liters FM200 Enclosed Flooding Extinguishing System With Automatic Electrical Manual And Mechanical

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CE/CCC/ISO/CMA/CAL/CNAS
- Model Number: QMQ4.2/70N-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T
- Supply Ability: 3000 sets per week

Because we are dedicated,
so we are professional.

Product Specification

- Working Pressure: 4.2MPa
- Pattern Of Extinguishing: Enclosed Flooding
- Cylinder Volume: 70L
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency Manual
- Activation Method: Automatic
- Extinguishing Concentration: 8~10%
- Maximum Working Pressure: 5.3MPa
- Filling Density: $\leq 950 \text{ Kg/m}^3$
- Highlight: **Mechanical FM200 Enclosed Flooding Extinguishing System**

Product Description

Product Description:

The FM 200 Piping Extinguishing System has a maximum working pressure of 5.3MPa, making it a reliable and durable choice for fire suppression. Its automatic activation method ensures that the system will activate quickly in the event of a fire, providing rapid response to minimize damage and protect personnel.

The system's starting mode provides flexibility in how it is activated. The automatic starting mode ensures that the system activates without delay, while the electrical manual starting mode allows for manual activation from a remote location. In the event of a power outage or other emergency situation, the mechanical emergency manual starting mode provides a failsafe option to activate the system manually.

The FM 200 Piping Extinguishing System has a cylinder volume of 70L, providing ample capacity for fire suppression in a variety of settings. Its enclosed flooding pattern of extinguishing ensures that the entire space is flooded with the FM200 agent, effectively suppressing the fire and preventing re-ignition.

Overall, the FM 200 Piping Extinguishing System is a reliable and effective fire suppression system that provides peace of mind in sensitive areas such as data centers and server rooms. Its FM200 fire suppression technology, automatic activation method, and flexible starting modes make it a top choice for fire protection.

Applications:

This gaseous fire suppression system is perfect for a range of application occasions and scenarios. It is suitable for use in server rooms, data centers, archives, museums, and other locations where sensitive equipment or valuable assets need to be protected from fire. The system is also ideal for use in offices, hotels, and other public buildings where a quick and effective response to a fire is essential.

The FM 200 Piping Extinguishing System is easy to install and operate. It can be started automatically or manually, depending on your requirements. The system's nozzle discharge time is just 10 seconds, ensuring that fires are quickly and efficiently extinguished. The cylinder material is steel, which is durable and long-lasting.

If you are interested in purchasing the FM 200 Piping Extinguishing System, the minimum order quantity is 1 set, and the price is negotiable. We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet. The delivery time is 10~15 working days, and we accept payment terms of L/C and T/T. Our supply ability is 3000 sets per week, so we can meet the demands of even the largest projects.

Investing in a fire suppression system is essential for protecting your building and its occupants. The FM 200 Piping Extinguishing System from RUIGANG is a reliable and effective fire suppression system that can provide peace of mind for years to come.

Support and Services:

The FM 200 Piping Extinguishing System is a reliable fire suppression system that uses a clean agent to extinguish fires quickly and efficiently. This system is designed to protect critical assets, such as data centers, telecommunications facilities, and other high-value equipment. Our technical support and services include:

- Custom system design and engineering
- Installation and commissioning
- Regular maintenance and inspections
- 24/7 emergency support
- Refilling and recharging services

Our team of experts is dedicated to ensuring the optimal performance of your FM 200 Piping Extinguishing System, and we are committed to providing timely and efficient technical support and services to meet your needs.

Packing and Shipping:

Product Packaging:

FM 200 Piping Extinguishing System

Installation Manual

Warranty Information

Shipping:

Ships within 2-3 business days

Shipping method: Ground

Shipping cost: Calculated at checkout based on location
