

## FM 200 Steel Fire Extinguishing Piping System With Automatic / Electrical / Mechanical Emergency Manual Starting

### Our Product Introduction

for more products please visit us on [firefm200.com](http://firefm200.com)

#### Basic Information

- Place of Origin: Guangzhou, Guangdong, China
- Brand Name: RUIGANG
- Certification: CE/CCC/ISO/CMA/CAL/CNAS
- Model Number: QMQ4.2/70N-RG
- Minimum Order Quantity: 1 set
- Price: negotiation
- Packaging Details: We pack products with first polyfoam and then the wooden cases. Once products are too big or customers require a pallet for products, we will make products a pallet.
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T
- Supply Ability: 3000 sets per week

Because we are dedicated,  
so we are professional.

#### Product Specification

- Filling Density:  $\leq 950 \text{ Kg/m}^3$
- Nozzle Discharge Time: 10 Seconds
- Cylinder Material: Steel
- Maximum Working Pressure: 5.3MPa
- Type: Gaseous Fire Suppression System
- Starting Mode: Automatic, Electrical Manual, Mechanical Emergency Manual
- Pattern Of Extinguishing: Enclosed Flooding
- Extinguishing Concentration: 8~10%
- Highlight: **FM 200 Steel Piping System,  
Electrical FM 200 Piping System,**

## Product Description

### Product Description:

The system has a maximum working pressure of 5.3MPa and a working pressure of 4.2MPa, which makes it highly reliable and efficient in extinguishing fires. Additionally, it has a cylinder volume of 70L, which means that it is capable of covering a large area and can extinguish fires in a matter of seconds.

The FM 200 Piping Extinguishing System uses an enclosed flooding pattern of extinguishing, which ensures that the entire area is covered with extinguishing agents. This makes it highly effective in extinguishing fires quickly and efficiently, as it ensures that all sources of ignition are put out at once.

Overall, the FM 200 Piping Extinguishing System is an indispensable tool for fire safety in server rooms and other areas where fires can pose a major threat. With its reliable performance, quick response time, and extensive coverage, it is the ideal solution for building fire suppression systems.

### Applications:

Thanks to its automatic starting mode, this system can be quickly activated in the event of a fire, ensuring that the protected area is covered as quickly as possible. In addition to its automatic mode, this system also offers electrical manual and mechanical emergency manual starting modes, providing extra flexibility and control in emergency situations.

With a working pressure of 4.2MPa, this system is able to deliver extinguishing concentration of 8~10%, making it highly effective at suppressing fires in even the most challenging environments. And, with its steel piping material, this system is built to last and can withstand even the harshest conditions.

RUIGANG's QMQ4.2/70N-RG FM 200 Piping Extinguishing System is certified by CE, CCC, ISO, CMA, CAL, and CNAS, ensuring that it meets the highest standards of quality and safety. And, with a minimum order quantity of just 1 set, this system is accessible to businesses of all sizes. Pricing is negotiable and packaging includes first polyfoam and then wooden cases, with pallets available upon request.

With a supply ability of 3000 sets per week and a delivery time of 10~15 working days, RUIGANG's FM 200 Piping Extinguishing System is a reliable and highly-effective solution for businesses in need of gas fire suppression systems.

### Support and Services:

The FM 200 Piping Extinguishing System is a high-performance fire suppression system designed to protect critical assets and personnel. Our product technical support and services include:

- System design and engineering
- Installation and commissioning
- Testing and maintenance
- Troubleshooting and repairs
- Training and education

Our team of experienced professionals is dedicated to providing you with the highest level of support and service to ensure the optimal performance and longevity of your FM 200 Piping Extinguishing System.

### Packing and Shipping:

#### Product Packaging:

The FM 200 Piping Extinguishing System is packed in a sturdy cardboard box to ensure safe delivery. Inside the box, all components of the system are securely packed in foam to prevent damage during transit.

#### Shipping:

We offer standard shipping options for the FM 200 Piping Extinguishing System. Our team carefully packages and ships the product within 3 business days of receiving the order. The estimated shipping time may vary depending on the destination, but we will provide a tracking number to ensure our customers can track the delivery status of their order.
