

8-15 Seconds Effective Dry Powder Fire Extinguisher with Safety Pin

Basic Information

- Place of Origin: Guangzhou
- Brand Name: RUIGANG
- Certification: CCS/CCCF/ISO
- Model Number: 2kg,4kg,5kg,6kg,8kg
- Minimum Order Quantity: 10set
- Price: negotiation
- Packaging Details: foam box
- Delivery Time: 10~15 working days
- Payment Terms: L/C, T/T,
- Supply Ability: 5000pcs/month

Product Specification

- Cylinder Material: Steel
- Pressure Gauge: Yes
- Weight Of Extinguishant: 2kg/3kg/4kg/5kg/6kg/8kg
- Working Temperature: -22°C~55°C
- Safety Pin: Yes
- Type: Portable
- Color: Red
- Spraying Lag Time: ≤5
- Effective Sparying Time: ≥8
- Effective Sparying Distance: ≥3
- Spray Residual Rate: ≤15%

Product Description

Product Description:

The Dry powder extinguisher cylinder is made of high-quality materials that are durable and can withstand high pressure. It also comes with a pressure gauge that allows you to easily monitor the pressure level of the extinguisher. This is essential to ensure that the extinguisher is always ready to use in case of an emergency.

The Fire Extinguisher product also features a safety pin that prevents accidental discharge, making it safe to handle and store. The safety pin is easy to remove, allowing for quick and easy access to the extinguisher when needed.

The weight of the extinguishant can vary from 2kg to 8kg, depending on the size of the cylinder. This makes it suitable for various applications and environments, from small offices to large industrial facilities. The extinguisher is also lightweight and easy to handle, making it easy to operate even for people without previous experience.

The Fire Extinguisher product has a spraying lag time of ≤ 5 seconds, which is crucial in case of a fire. This means that the extinguishing agent is released within seconds of activating the extinguisher, helping to prevent the fire from spreading and causing further damage.

In summary, the Dry powder extinguisher for Class B liquid fires is a reliable and efficient solution to help prevent and control fires. It features a Monoammonium phosphate dry powder extinguisher, a durable cylinder, a pressure gauge, a safety pin, and a range of extinguishant weights to suit various applications. With a spraying lag time of ≤ 5 seconds, this extinguisher is a must-have for any workplace or home.

Applications:

The RUIGANG fire extinguisher is a reliable and effective tool for fighting fires in a variety of settings. Its multipurpose dry powder extinguishing agent makes it suitable for use on Class A, B, and C fires, making it a versatile option for any fire emergency.

The transportable design of this fire extinguisher makes it easy to move from place to place, ensuring that it is always within reach in the event of a fire. It is a perfect fit for residential, commercial, and industrial applications, making it an essential part of any fire safety plan.

With its certification from CCCF, ISO, CE, and CCS, you can trust that this fire extinguisher meets the highest standards of quality and safety. Its effective spraying distance of 3m to 4.5m ensures that fires can be put out quickly and efficiently, while its spray residual rate of less than 15% ensures that minimal damage is done to the surrounding area.

The RUIGANG fire extinguisher comes in a variety of models, including 2kg, 4kg, 5kg, 6kg, and 8kg options, providing a range of options for different fire-fighting needs. Its effective spraying time of 8-15 seconds ensures that fires can be extinguished quickly and efficiently, minimizing damage and risk to those in the area.

This portable fire extinguisher is a must-have for any home, office, or industrial setting. Its versatility, reliability, and ease of use make it an essential part of any fire safety plan. With a minimum order quantity of 10 sets, a negotiable price, and a delivery time of 10-15 working

days, this fire extinguisher is an affordable and effective investment in fire safety.
Order your RUIGANG fire extinguisher today and ensure that you are prepared for any fire emergency that may arise.

Packing and Shipping:

Product Packaging:

The fire extinguisher is packaged securely with foam inserts to prevent any damage during shipping. It is also sealed to prevent any tampering or accidental discharge.

Shipping:

The fire extinguisher will be shipped via a certified carrier to ensure safe and timely delivery. Customers will receive a tracking number to monitor the status of their shipment.
