- Highlight: Dry Powder Fire Extinguisher ,
Abc Dry Powder Fire Extinguisher

Product Description

Product Description:

The Fire Extinguisher with ABC Dry Powder is designed to be both easy to use and highly effective. With a spray residual rate of $\leq 15\%$, you can trust that this fire extinguisher will quickly and effectively extinguish any small fires that may occur. And with a spraying lag time of ≤ 5 seconds, you can be sure that you'll be able to react quickly in the event of an emergency.

The Fire Extinguisher with ABC Dry Powder is also highly durable, with a cylinder made from sturdy steel. This material ensures that the fire extinguisher will be able to withstand the rigors of use, and will provide reliable fire suppression for years to come.

In addition to its high-quality construction, this fire extinguisher is also highly versatile. With a weight of 2kg, 3kg, 4kg, 5kg, 6kg, or 8kg, you can choose the size that is best suited for your needs. And with its distinctive red color, you'll be able to easily locate the fire extinguisher in the event of an emergency.

Overall, the Fire Extinguisher with ABC Dry Powder is an essential piece of firefighting equipment for any home or workplace. With its reliable and effective fire suppression capabilities, sturdy construction, and easy-to-use design, this fire extinguisher is a must-have for anyone concerned about fire safety. Don't wait until it's too late - order your Fire Extinguisher with ABC Dry Powder today and give yourself the peace of mind that comes with knowing you're prepared for any emergency.

Applications:

These fire extinguishers are suitable for use in a wide range of scenarios, including but not limited to homes, offices, schools, laboratories, factories, and warehouses. They are particularly useful in scenarios where there is a high risk of fire, such as in chemical plants, gas stations, and power plants.

The laboratory dry powder extinguisher is a specialized product offered by Ruigang, which is designed to extinguish fires caused by combustible metals and certain types of chemical reactions. These extinguishers are commonly used in research labs, chemical manufacturing facilities, and other settings where hazardous materials are handled.

One of the key features of Ruigang's portable fire extinguishers is their easy-to-use design. They come equipped with a pressure gauge that indicates the level of the extinguishing agent and a trigger mechanism that can be operated with one hand. This makes them ideal for use by individuals with little or no training in firefighting.

Ruigang's extinguishers have been certified by several regulatory bodies, including CCCF, ISO and CCS. They are also tested and approved by independent testing agencies to ensure that they meet the highest standards of quality and safety.

These extinguishers have a minimum order quantity of 10 sets and a delivery time of 10-15 working days. The price is negotiable and payment can be made through L/C or T/T. The supply ability is 5000pcs per month.

Finally, Ruigang's extinguishers have an effective spraying time of 8-15 seconds and can be used to extinguish Class A, B, and C fires. They are designed to work in a wide range of temperatures, from -22°C to 55°C . Whether you need a fire extinguisher for your home, office, or industrial facility, Ruigang has the perfect product for your needs.

Packing and Shipping:

Product Packaging:

The fire extinguisher will be packaged securely in a cardboard box with appropriate cushioning material to prevent any damage during transit. The box will have the product label and safety instructions on it.

Shipping:

The fire extinguisher will be shipped via standard ground shipping. The estimated delivery time is 5-15 business days. Shipping costs will be calculated at checkout based on the destination and weight of the package.
