

Reliable Portable Dry Powder Fire Extinguisher Fast Response Easy To Use For Home Office Safety

Our Product Introduction

Basic Information

- Place of Origin: Guangzhou
- Brand Name: RUIGANG
- Certification: CCS/CCCF/ISO
- Model Number: 2kg
- Minimum Order Quantity: 10set
- Price: negotiation
- Packaging Details: cardboard box
- Delivery Time: 10~15 working days
- Payment Terms: L/C,T/T,
- Supply Ability: 5000pcs/month

Product Specification

- Effective Spraying Distance: $\geq 3\text{m}$
- Spray Residual Rate: $\leq 15\%$
- Driving N2 Pressure: 1.2MPa
- Extinguishing Agent: Dry Powder
- Effective Spraying Time: $\geq 8\text{s}$
- Usage: Class A, B, C And E Fires
- Fire Extinguishing Level: 1A, 21B, C, E
- Safety Pin: Yes
- Highlight: Reliable Portable Fire Extinguisher ,
Easy to Use Fire Extinguisher ,
Office Dry Powder Fire Extinguisher

Product Description

Product Description:

The Dry powder extinguisher cylinder is filled with a Dry Powder extinguishing agent, which is highly effective in extinguishing fires caused by flammable liquids, electrical equipment, and combustible materials. The Dry Powder agent works by smothering the fire and preventing the release of oxygen, which is essential for the fire to continue burning. This makes it an ideal choice for fighting Class A, B, C, and E fires.

The Fire Extinguisher product comes in a Trolley type design, which makes it easy to move around and transport to different locations. This feature is particularly useful in industrial settings where fires can occur in different areas and require immediate action. The Trolley design means that the extinguisher can be easily transported and used quickly, which is crucial for containing and putting out fires.

The Fire Extinguisher product is equipped with a Pressure Gauge that indicates the pressure level of the extinguisher. This feature allows users to monitor the pressure level of the extinguisher and ensure that it is ready for use in case of an emergency. The Pressure Gauge is an important safety feature that helps to prevent the extinguisher from malfunctioning or failing when needed.

The Fire Extinguisher product is powered by Driving N2 Pressure of 1.2MPa. This pressure level ensures that the Dry Powder agent is expelled from the extinguisher with enough force to extinguish the fire. The Driving N2 Pressure is a crucial component of the extinguisher, and it ensures that the Dry Powder agent is delivered effectively and efficiently to the source of the fire.

In conclusion, the Vehicle dry powder extinguisher is a high-quality and reliable fire extinguisher product that is essential for any business, home, or public facility. With its Fire Extinguishing Level of 1A,21B,C,E, Dry powder extinguisher cylinder, Trolley type design, Pressure Gauge, and Driving N2 Pressure of 1.2MPa, this extinguisher is a powerful tool for fighting different types of fires. It is perfect for those who are looking for a dependable and efficient fire extinguisher product that is easy to use and transport.

Applications:

RUIGANG brand fire extinguisher is a reliable and efficient fire safety solution for various occasions and scenarios. The extinguisher is available in different models, including 2kg, 4kg, 5kg, 6kg, and 8kg, to accommodate different needs.

The extinguisher is made in Guangzhou and comes with CCCF, ISO, and CCS certifications, ensuring its quality and safety. The minimum order quantity is 10 sets, and the price is negotiable. The delivery time is 10~15 working days, and the payment terms are L/C and T/T. The extinguisher has a supply ability of 5000pcs/month.

The extinguisher is an industrial-grade dry powder extinguisher suitable for Class A, B, C, and E fires. The extinguishing agent is dry powder, which can effectively extinguish fires caused by flammable solids, liquids, gases, and electrical equipment. The spray residual rate is $\leq 10\%$, ensuring that the extinguisher can put out the fire completely.

The extinguisher can operate within a temperature range of $-20^{\circ}\text{C} \sim 55^{\circ}\text{C}$, making it suitable for different environments. The weight of the extinguishant is 2 ± 0.06 , making it easy to handle and operate.

The RUIGANG fire extinguisher is versatile and can be used in various situations, including industrial sites, offices, homes, and vehicles. The ABC dry powder extinguisher is suitable for Class A, B, and C fires, making it an excellent choice for general use. The vehicle dry powder extinguisher is specially designed for use in vehicles and can effectively extinguish fires that may occur while driving.
