

Ship CO2 Fire Extinguishing System for Maritime Fire Protection – Reliable & Effective

Basic Information

- Brand Name:
- Certification: CCS,BV
- Model Number:

• Price:

- Minimum Order
 Quantity:
 - Negotiable
- Packaging Details: Plywood Outer Box With Bubble Bag Or

500 Sets/ Month

1set

RUIGANG

RG8/10/12/20/40/68

- Delivery Time: 15~20 Worke Days
- Payment Terms: T/T,L/C
- Supply Ability:

Product Specification

 Diaphragm Burst Pressure: 	18.6±1MPa
Agent:	Carbon Dioxide CO2
Actuating Method:	Pneumatic,manual
Cylinder Material:	Stainless Steel
• Discharge Delay Time:	20~40s
Capacity:	8L/10L/12L/20L/40L/68L
Application:	Marine
Warranty:	1 Year
Highlight:	CO2 Maritime Fire Extinguishing System , Reliable Maritime Fire Extinguishing System , Effective Maritime Fire Extinguishing System

Product Description:

The Marine Fire Extinguishing System is an essential component of marine fire safety systems, specifically designed as a CO2 fire extinguisher for ships. This advanced system is engineered to provide reliable and efficient fire suppression capabilities in marine environments, ensuring the safety of crew members and the protection of valuable assets onboard. Key Features:

Cylinder Material: Constructed from high-quality stainless steel, the cylinder of this Marine Fire Extinguishing System is durable and corrosion-resistant, making it suitable for harsh marine conditions.

Discharge Delay Time: With a discharge delay time ranging from 20 to 40 seconds, this system offers a swift response to fire incidents, helping to contain and extinguish flames promptly.

Working Pressure: Operating at a working pressure of 14.1 MPa, the system ensures the effective discharge of CO2 to suppress fires efficiently.

Diaphragm Burst Pressure: The diaphragm of the system is designed to withstand a burst pressure of 18.6±1 MPa, enhancing its safety and reliability during operation.

Warranty: Backed by a 1-year warranty, the Marine Fire Extinguishing System provides customers with confidence in its quality and performance.

Designed for marine applications, this CO2 fire suppression system is a vital component of ship safety equipment, offering a proactive approach to fire protection at sea. The system's robust stainless steel construction ensures long-term durability and resistance to marine elements, making it a dependable choice for marine vessels of various sizes.

With its quick discharge delay time and high working pressure, the Marine Fire Extinguishing System is capable of swiftly suppressing fires and preventing them from spreading, minimizing potential damage and ensuring the safety of the ship and its occupants. The system's diaphragm burst pressure further enhances its reliability, providing an added layer of safety in critical fire scenarios.

Customers can have peace of mind knowing that this marine CO2 fire suppression system is backed by a 1-year warranty, demonstrating the manufacturer's commitment to quality and customer satisfaction. Whether used on cargo ships, passenger vessels, or offshore platforms, this system is a trusted solution for effective fire protection in the demanding marine environment.

Investing in the Marine Fire Extinguishing System is a proactive step towards enhancing onboard safety and protecting valuable assets from the devastating impact of fires. With its durable construction, efficient performance, and warranty coverage, this system is a reliable choice for shipowners and operators seeking top-tier fire suppression solutions for their marine vessels.

Applications:

Whether it's for commercial vessels, offshore platforms, or other marine settings, the RUIGANG Marine Fire Extinguishing System is a trusted choice for Marine Fire Prevention Solutions. With a minimum order quantity of just 1 set and negotiable pricing, this system offers flexibility and accessibility for different project requirements.

The packaging details of this system include a plywood outer box with bubble bag or paper, ensuring secure transportation and delivery. Speaking of delivery, the system typically reaches customers within 15 to 20 working days, making it a timely solution for urgent needs. Payment terms for the RUIGANG Marine Fire Extinguishing System include T/T and L/C, providing convenience and options for buyers. With a robust supply ability of 500 sets per month, customers can rely on consistent availability of this essential Marine Fire Extinguisher System.

Key technical specifications of this system include a nominal pressure of 14.1MPa, working pressure of 14.1 MPa, and diaphragm burst pressure of 18.6±1MPa. Available in capacities of 8L, 10L, 12L, 20L, 40L, and 68L, the system caters to diverse needs in terms of fire suppression capabilities.

Equipped with a discharge delay time of 20 to 40 seconds, the RUIGANG Marine Fire Extinguishing System offers swift and effective response to fire emergencies, safeguarding marine environments and personnel. Choose RUIGANG for reliable and efficient Marine Fire Extinguishing Solutions.

Customization:

Product Customization Services for the RUIGANG Marine Fire Extinguishing System:

- Brand Name: RUIGANG
- Model Number: RG8/10/12/20/40/68
- Place Of Origin: Guangzhou, Guangdong, China
- Certification: CCS, BV
- Minimum Order Quantity: 1 set
- Price: Negotiable
- Packaging Details: Plywood Outer Box With Bubble Bag Or Paper
- Delivery Time: 15~20 Working Days
- Payment Terms: T/T,L/C
- Supply Ability: 500 Sets/ Month
- Discharge Delay Time: 20~40s
- Color: Red
- Nominal Pressure: 14.1MPa
- Agent: Carbon Dioxide CO2
- Working Pressure: 14.1 MPa

Keywords: CO2 Fire Safety for Ships, CO2 Fire Protection for Vessels, Marine Fire Extinguisher Systems

Packing and Shipping:

Product Packaging: The Marine Fire Extinguishing System is carefully packaged in a sturdy cardboard box to ensure its safe transportation. The product is

securely cushioned with foam inserts to prevent any damage during shipping. Shipping Information:

Once your order is confirmed, the Marine Fire Extinguishing System will be shipped within 1-2 business days. We partner with reliable shipping carriers to ensure timely delivery of your product. You will receive a tracking number to monitor the progress of your shipment.

FAQ:

A: The brand name is RUIGANG.	
Q: What are the available model numbers for the Marine Fire Extinguishing System? A: The available model numbers are RG8, RG10, RG12, RG20, RG40, and RG68.	
Q: Where is the Marine Fire Extinguishing System manufactured? A: The Marine Fire Extinguishing System is manufactured in Guangzhou, Guangdong, China.	
Q: What certifications does the Marine Fire Extinguishing System have? A: The system is certified by CCS (China Classification Society) and BV (Bureau Veritas).	
Q: What is the minimum order quantity for the Marine Fire Extinguishing System? A: The minimum order quantity is 1 set.
