

## Reliable Marine CO2 Fire Suppression System for Ships – Effective Fire Safety Solution

Our Product Introduction

### Basic Information

- Brand Name: RUIGANG
- Certification: CCS,BV
- Model Number: RG8/10/12/20/40/68
- Minimum Order Quantity: 1set
- Price: Negotiable
- Packaging Details: Plywood Outer Box With Bubble Bag Or Paper
- Delivery Time: 15~20 Work Days
- Payment Terms: T/T,L/C
- Supply Ability: 500 Sets/ Month

### Product Specification

- Actuating Method: Pneumatic,manual
- Propellant Gas: N2
- Diaphragm Burst Pressure: 18.6±1MPa
- Discharge Delay Time: 20~40s
- Warranty: 1 Year
- Nominal Pressure: 14.1MPa
- Cylinder Material: Stainless Steel
- Application: Marine
- Highlight: Ships CO2 Fire Suppression System

### Product Description:

The Marine Fire Extinguishing System is a top-of-the-line solution designed to provide effective fire suppression in marine environments. With a discharge delay time of 20~40 seconds, this system ensures quick and efficient response to fire emergencies, helping to prevent extensive damage and ensure the safety of personnel on board.

Using N2 as the propellant gas and Carbon Dioxide (CO2) as the agent, this system is equipped to handle a variety of fire types commonly encountered in marine settings. The use of CO2 as the extinguishing agent makes it the best CO2 fire suppression system for marine applications, as it is non-conductive and leaves no residue, minimizing damage to equipment and sensitive electronics.

The cylinder of the Marine Fire Extinguishing System is made of high-quality stainless steel, providing durability and corrosion resistance to withstand the harsh marine environment. This ensures the longevity and reliability of the system, making it a cost-effective choice for ship owners and operators.

With a diaphragm burst pressure of 18.6±1MPa, this system is engineered to deliver the agent swiftly and effectively to the fire source, ensuring rapid extinguishment and containment of the fire. This feature enhances the overall efficiency and performance of the system, making it a dependable choice for marine fire safety.

Overall, the Marine Fire Extinguishing System offers a comprehensive and reliable solution for fire protection on ships and marine vessels. Its efficient discharge delay time, use of CO2 as the extinguishing agent, stainless steel cylinder construction, and high diaphragm burst pressure make it a standout choice for ship owners looking to invest in a quality fire suppression system.

When it comes to ensuring the safety of personnel and assets at sea, the Marine Fire Extinguishing System provides peace of mind and confidence in the face of fire emergencies. Choose the best CO2 fire suppression system for marine applications and equip your ship with the reliable and effective CO2 Fire Extinguisher for Ship.

### Applications:

The RUIGANG Marine Fire Extinguishing System (Model: RG8/10/12/20/40/68) is specifically designed for CO2 fire protection in vessels, making it an essential component of ship fire protection systems. This high-quality product originates from Guangzhou, Guangdong, China and comes with certifications from CCS and BV, ensuring its reliability and compliance with industry standards.

With a minimum order quantity of 1 set and negotiable pricing, the RUIGANG Marine Fire Extinguishing System is suitable for various marine applications. The system is packaged securely in a plywood outer box with bubble bag or paper, guaranteeing safe delivery to your location within 15 to 20 working days.

Accepted payment terms include T/T and L/C, providing flexibility for customers. Additionally, with a supply ability of 500 sets per month, you can rely on prompt delivery of this essential CO2 fire protection system for the marine industry.

The RUIGANG Marine Fire Extinguishing System operates with N2 as the propellant gas and has a discharge delay time of 20 to 40 seconds, ensuring effective fire suppression when needed. The product comes with a warranty of 1 year, giving you peace of mind regarding its performance and durability.

With a working pressure of 14.1 MPa, the RUIGANG Marine Fire Extinguishing System is a reliable choice for CO2 fire protection for vessels. Whether you are looking to enhance the safety measures on your ship or comply with industry regulations, this system offers a robust solution for fire emergencies at sea.

### Customization:

Product Customization Services for the RUIGANG Marine Fire Extinguishing System

Brand Name: RUIGANG

Model Number: RG8/10/12/20/40/68

Place Of Origin: Guangzhou, Guangdong, China

Certification: CCS, BV

Minimum Order Quantity: 1 set

Price: Negotiable

Packaging Details: Plywood Outer Box With Bubble Bag Or Paper

Delivery Time: 15~20 Working Days

Payment Terms: T/T, L/C

Supply Ability: 500 Sets/ Month

Working Pressure: 14.1 MPa

Discharge Delay Time: 20~40s

Agent: Carbon Dioxide CO2

Diaphragm Burst Pressure: 18.6±1MPa

Color: Red

Keywords: Ship Fire Protection Systems, Vessel CO2 Fire Extinguisher, Marine Fire Extinguishing Solutions

### Packing and Shipping:

Product Packaging and Shipping:

The Marine Fire Extinguishing System is carefully packaged to ensure its safe delivery to you. It is securely wrapped in protective materials to prevent any damage during transit. The package is also clearly labeled with handling instructions and safety information. For shipping, the Marine Fire Extinguishing System will be sent via a reputable courier service to your designated address. You will receive a tracking number to monitor the delivery status of your package. Delivery times may vary depending on your location.

#### FAQ:

A: The brand name is RUIGANG.

Q: What are the available models for the Marine Fire Extinguishing System?

A: The available models are RG8/10/12/20/40/68.

Q: Where is the Marine Fire Extinguishing System manufactured?

A: The Marine Fire Extinguishing System is manufactured in Guangzhou, Guangdong, China.

Q: What certifications does the Marine Fire Extinguishing System have?

A: The system is certified by CCS (China Classification Society) and BV (Bureau Veritas).

Q: What is the minimum order quantity for the Marine Fire Extinguishing System?

A: The minimum order quantity is 1 set.
