- Type: Cabinet-type
- Cabinet Material: Stainless Steel
- Discharge Pressure: $5.6 \pm 0.28 \text{ MPa}$
- Electrical Requirements: 220V, 50Hz
- Cylinder Color: Red
- Activation Method: Automatic/Manual
- Filling Pressure: 2.5MPa
- Highlight: Data Centers Fire Suppression System, Server Rooms Fire Suppression System

Product Description

Product Description:

The FM200 Cabinet Fire Extinguishing System is a robust fire protection solution designed to safeguard your valuable assets and ensure the safety of your premises. This state-of-the-art system is an essential addition to any facility that prioritizes fire safety and prevention. Constructed with high-quality steel cylinders, the FM200 Cabinet Fire Extinguishing System is built to withstand the rigors of fire emergencies and provide reliable fire suppression when needed. The steel construction ensures durability and longevity, making it a dependable choice for protecting your property.

One of the key features of the FM200 Cabinet Fire Extinguishing System is its versatile activation method. This system can be configured for automatic activation, allowing for swift and efficient response to fire incidents. Alternatively, it can also be activated manually for situations that require immediate intervention. This flexibility in activation methods ensures that the system can adapt to various fire scenarios and provide timely protection.

Enhanced with a vibrant red cabinet color, the FM200 Cabinet Fire Extinguishing System is easily identifiable in emergency situations, enabling quick access for firefighting personnel. The bold red color serves as a visual cue for the location of the fire safety equipment, ensuring that it can be readily accessed when needed most.

Complementing the cabinet color, the steel cylinders of the FM200 Cabinet Fire Extinguishing System are also coated in a striking red finish. This uniform color scheme not only enhances the aesthetic appeal of the system but also reinforces its visibility, making it a standout feature in any facility.

The FM200 Cabinet Fire Extinguishing System falls under the category of Automatic fire extinguishing systems, offering advanced fire suppression capabilities that can mitigate fire risks effectively. With its cutting-edge technology and reliable performance, this system provides peace of mind to property owners and occupants, knowing that they are equipped with top-of-the-line fire safety equipment. Investing in the FM200 Cabinet Fire Extinguishing System is a proactive step towards protecting your property and ensuring the safety of individuals within your premises. By choosing this innovative fire protection solution, you are demonstrating a commitment to fire safety and readiness, setting a high standard for emergency preparedness.

Experience the reliability and efficiency of the FM200 Cabinet Fire Extinguishing System, a premium fire safety solution that delivers unparalleled performance and peace of mind. Safeguard your property, assets, and personnel with this cutting-edge fire protection system.

Applications:

Perfect for various application occasions and scenarios, this cabinet fire extinguishing system is suitable for spaces such as server rooms, control rooms, archives, and other enclosed areas where critical assets need protection. Its pollution-free FM200 agent ensures minimal damage to the environment while effectively suppressing fires.

The RUIGANG FM200 system comes with a minimum order quantity of 1 set, and the price is negotiable to suit different budget requirements. Packaging details include first polyfoam protection followed by wooden cases, with the option for pallets for larger products as per customer request.

With a delivery time of 10-15 working days, customers can rely on timely supply of this efficient fire suppression system. Payment terms accepted are T/T and L/C, providing flexibility for various purchasing preferences.

Constructed with a red steel cylinder and stainless steel cabinet material, this system can cover a maximum protective volume of 254 M³, making it ideal for medium to large enclosed spaces. The RUIGANG FM200 Cabinet Fire Extinguishing System boasts a supply ability of 3000 sets per month, ensuring availability for different scale requirements.
