### Basic Information

- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XQQW10/1.6RG
- Minimum Order Quantity: 3 Set
- Price: Negotiable
- Packaging Details: Foam Packaging Crate
- Delivery Time: 10~15 Working Days
- Payment Terms: L/C,D/P,T/T,Credit Card,Western Union
- Supply Ability: 30000 Sets / Month

### Product Specification

- Installation Mode: Hanging
- Application: Indoor
- Specification: 10L
- Activating Temperature: 68°C
- Cylinder Height: 230±20(mm)
- Type: Automatic
- Company Type: Manufacturer Over 10-Years
- Working Temperature Range: -10°C~50°C
- Cylinder Diameter: 300±20(mm)

## Product Description

### Product Description:

The Automatic Fire Extinguisher is a state-of-the-art fire suppression system designed for indoor use. With a cylinder height of  $230\pm 20$ (mm) and a large volume of 30L, this automatic extinguisher is a reliable solution for fire emergencies. Equipped with advanced technology, this fire extinguisher operates automatically, providing quick and efficient fire suppression without the need for manual intervention. The system is designed to detect and extinguish fires rapidly, helping to minimize damage and protect lives.

The Automatic Fire Extinguisher is available in various specifications, including 10L, 20L, and 30L, to suit different indoor environments and fire protection needs. Whether you require a smaller capacity for a compact space or a larger volume for increased coverage, this versatile extinguisher has you covered.

One of the key features of this automatic fire extinguisher is its use of FM200, a highly effective gas fire suppression system. FM200 is a trusted clean agent that is safe for use in indoor environments, making it ideal for applications such as data centers, where protecting sensitive equipment is crucial.

In addition to FM200, this automatic extinguisher is also compatible with HFC-227ea clean agent fire extinguishing systems. HFC-227ea is a proven agent that efficiently suppresses fires without leaving behind residue or damaging equipment, making it a reliable choice for fire protection.

When it comes to fire safety in indoor spaces, having a dependable automatic fire extinguisher is essential. This product offers peace of mind knowing that your property is equipped with a reliable and effective fire suppression system that can quickly respond to emergencies.

Whether you are looking to enhance the fire safety measures in your home, office, or commercial building, the Automatic Fire Extinguisher is a valuable investment. Its automatic operation, high capacity, and compatibility with advanced fire suppression agents make it a top choice for indoor fire protection.

Don't compromise on safety when it comes to protecting your property and occupants. Invest in the Automatic Fire Extinguisher today and ensure that you are prepared for any fire emergency that may arise in your indoor space.

### Applications:

Suitable for indoor use, this automatic fire extinguisher is ideal for various application occasions and scenarios. Its innovative design and use of HFC-227ea as filler make it an efficient and reliable fire suppression device. The cylinder height of  $300\pm 20$ (mm) and a volume of 30L provide ample fire extinguishing capacity.

For installations requiring the HFC-227ea hanging device, the RUIGANG Automatic Fire Extinguisher is a perfect fit. The Hanging Fire Suppression Device Installation process is made easy with this product, offering quick and effective fire protection.

With a minimum order quantity of 3 sets and negotiable pricing, this fire extinguisher is accessible to a wide range of customers. The packaging details include a plywood outer box with bubble bag or paper, ensuring safe delivery.

Customers can expect a delivery time of 10~15 working days, and flexible payment terms such as L/C, D/P, T/T, and credit card options are available. With a supply ability of 30000 sets per month, the RUIGANG Automatic Fire Extinguisher is readily available to meet varying demand levels.

### Packing and Shipping:

Product Packaging:

Our Automatic Fire Extinguisher is carefully packaged to ensure its safety during shipping. Each unit is enclosed in a durable cardboard box with protective foam inserts to prevent any damage. The packaging includes clear labeling with instructions for easy identification.

Shipping:

We ship our Automatic Fire Extinguisher using reliable carriers to ensure timely delivery to our customers. The product is securely packed and sealed to prevent any leaks or damage during transit. Customers will receive a tracking number to monitor the shipment status and ensure a smooth delivery process.
