

Space-Saving Suspended Fire Extinguisher | Fast-Acting 7-10s Response

Basic Information

- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XQQW20/1.6RG
- Minimum Order Quantity: 3 Set
- Price: Negotiable
- Packaging Details: Foam Packaging Crate
- Delivery Time: 10~15 Working Days
- Payment Terms: L/C,D/P,T/T,Credit Card,Western Union
- Supply Ability: 30000 Sets / Month

Product Specification

- Application: Indoor
- Volume: 20L
- Company Type: Manufacturer Over 10-Years
- Activation Method: Thermal Detection
- Working Temperature Range: -10°C~50°C
- Fire Extinguisher Color: Red
- Installation Mode: Hanging
- Activating Temperature: 68°C
- Cylinder Diameter: 350±20 mm
- Cylinder Height: 277±20 mm
- Highlight: Fast Acting Suspended Fire Extinguisher , Space Saving Suspended Fire Extinguisher

Product Description

Product Description:

The Automatic Fire Extinguisher is a reliable fire protection system designed for small spaces, providing efficient and automatic fire suppression when needed. This innovative product features a specialized filler known as HFC-227ea, a highly effective extinguishing agent that is safe for use in enclosed areas.

Manufactured by a reputable company with over 10 years of experience in fire safety solutions, this Automatic Fire Extinguisher is built to meet the highest quality standards and ensure reliable performance in case of emergencies. The use of the HFC-227ea filler demonstrates the product's commitment to environmental sustainability and safety.

One of the key features of this Automatic Fire Extinguisher is its automatic activation mechanism, which triggers the release of the extinguishing agent when the surrounding temperature reaches 68°C. This ensures swift and effective fire suppression without the need for human intervention, making it an ideal choice for areas where fires can escalate rapidly.

Available in three different specifications - 10L, 20L, and 30L - this Automatic Fire Extinguisher can be customized to suit the specific requirements of different spaces and applications. Whether it is a small office, server room, kitchen, or storage area, this versatile product offers flexible options for fire protection.

The design of the Automatic Fire Extinguisher includes a hanging device that allows for easy installation in various locations. The hanging device ensures that the extinguisher is securely suspended, making it visible and easily accessible in case of a fire emergency. This feature enhances the product's usability and ensures quick response to fire incidents.

For businesses and individuals looking for a reliable and efficient fire protection system for small spaces, the HFC-227ea hanging extinguishing device offers a comprehensive solution. Its automatic activation, eco-friendly extinguishing agent, and customizable specifications make it a valuable addition to any fire safety plan.

Investing in the Automatic Fire Extinguisher not only helps protect lives and property but also provides peace of mind knowing that there is a dependable fire suppression system in place. With its advanced features and proven effectiveness, this product is a cost-effective and essential tool for fire prevention and safety.

Applications:

The RUIGANG Automatic Fire Extinguisher, model XQQW20/1.6RG, is a top-of-the-line fire safety product designed to provide efficient fire suppression in various settings. With its origins in Guangzhou, China, this product has obtained certifications such as CCC, ISO, CMA, CAL, and CNAS, ensuring its quality and reliability.

Perfect for a wide range of applications, the RUIGANG Automatic Fire Extinguisher is ideal for scenarios where fire protection is paramount. Some of the product application occasions include industrial facilities, commercial buildings, data centers, server rooms, electrical rooms, and more. The FM200 Hanging System makes it easy to install the HFC-227ea Automatic Fire Extinguisher in strategic locations for maximum coverage.

With a minimum order quantity of 3 sets and negotiable pricing, customers can easily acquire the RUIGANG Automatic Fire Extinguisher to meet their specific needs. The packaging details include a plywood outer box with bubble bag or paper, ensuring safe delivery of the product. Customers can expect a delivery time of 10 to 15 working days, with payment terms that include L/C, D/P, T/T, and credit card options.

As a manufacturer with over 10 years of experience, RUIGANG offers a supply ability of 30000 sets per month, ensuring that customers have access to this high-quality fire safety solution. The Automatic Fire Extinguisher is available in 10L, 20L, and 30L specifications, with a striking red color for easy identification.

Capable of protecting a maximum volume of 16m³, the RUIGANG Automatic Fire Extinguisher operates within a working temperature range of -10°C to 50°C, making it suitable for various environmental conditions. Whether it's for new installations or replacing outdated fire suppression systems, this product provides reliable and efficient fire protection wherever it is needed.
