Basic Information

- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XQQW10/20/30/1.6RG
- Minimum Order Quantity: 3 Set
- Price: Negotiable
- Packaging Details: Foam Packaging Crate
- Delivery Time: 10~15 Working Days
- Payment Terms: L/C,D/P,T/T,Credit Card,Western Union
- Supply Ability: 30000 Sets / Month

Product Specification

- Specification: 10L/20L/30L
- Type: Automatic
- Filler: HFC-227ea
- Working Temperature Range: -10°C~50°C
- Activating Temperature: 68°C
- Installation Mode: Hanging
- Fire Extinguisher Color: Red
- Company Type: Manufacturer Over 10-Years
- Cylinder Diameter: 300±20(mm)~400±20(mm)
- Cylinder Height: 230±20(mm)~316±20(mm)
- Maximum Protective Volume: 16m³~63m³

Product Description

Product Description:

The Automatic Fire Extinguisher is a cutting-edge fire safety solution designed for modern environments. This innovative product offers advanced features to ensure effective fire suppression in various settings. With its hanging installation mode, this fire extinguisher is suitable for a wide range of applications, providing reliable protection against fire hazards.

The Automatic Fire Extinguisher utilizes an enclosed flooding pattern of extinguishing, ensuring thorough coverage and rapid suppression of fires. This feature makes it an ideal choice for spaces where traditional fire extinguishers may not be as effective. The red color of the fire extinguisher enhances visibility and makes it easy to locate in case of emergencies.

Powered by HFC-227ea, a clean agent fire suppressant, this Automatic Fire Extinguisher is environmentally friendly and safe for use in occupied spaces. The filler material is carefully selected to provide optimal fire suppression capabilities while minimizing any potential harm to the environment.

Available in 10L, 20L, and 30L specifications, this FM200 Automatic Fire Extinguisher offers flexibility to suit different space requirements. Whether it's a small office, a commercial building, or an industrial facility, this fire extinguisher can be tailored to meet the specific needs of the environment.

Designed as a hanging gas fire extinguishing device, this Automatic Fire Extinguisher is easy to install and requires minimal maintenance. Its efficient design and user-friendly features make it a reliable choice for fire safety professionals and building owners looking to enhance their fire protection measures.

Overall, the Automatic Fire Extinguisher is a dependable and effective solution for fire suppression in diverse settings. With its hanging installation mode, enclosed flooding pattern of extinguishing, red color for visibility, HFC-227ea filler, and multiple specification options, this fire extinguisher offers a comprehensive approach to fire safety.

Applications:

Product Application Occasions and Scenarios for the RUIGANG HFC-227ea Automatic Fire Extinguisher:

The RUIGANG HFC-227ea Automatic Fire Extinguisher, model XQQW10/20/30/1.6RG, originating from Guangzhou, China, is a highly efficient fire safety product suitable for various application occasions and scenarios. With certifications including CCC, ISO, CMA, CAL, and CNAS, this automatic fire suppression system is designed to provide reliable fire protection in different settings.

One of the key attributes of this product is its versatility in usage, making it ideal for a range of environments. The RUIGANG Automatic Fire Extinguisher can be effectively deployed in commercial buildings, such as offices, restaurants, and retail spaces, where fire hazards may pose a significant risk. Its quick response and automatic activation ensure timely fire suppression, safeguarding occupants and property.

Furthermore, this automatic fire suppression system is well-suited for industrial settings, including manufacturing facilities, warehouses, and production plants. The RUIGANG Fire Extinguisher's high supply ability of 30000 sets per month makes it a reliable choice for businesses requiring multiple units for comprehensive fire protection.

With a cylinder height of 230±20(mm) ~316±20(mm) and available in 10L, 20L, and 30L specifications, the fire extinguisher's red color and hanging installation mode allow for easy visibility and accessibility. Whether installed in server rooms, electrical control rooms, or storage areas, the RUIGANG HFC-227ea Automatic Fire Extinguisher can effectively suppress fires in enclosed spaces, with a maximum protective volume of 47m³.

When considering procurement, the RUIGANG Automatic Fire Extinguisher offers flexible payment terms, including L/C, D/P, T/T, and credit card, with a negotiable price and a minimum order quantity of 3 sets. The packaging details feature a plywood outer box with bubble bag or paper, ensuring secure transit, and a delivery time of 10~15 working days for timely deployment.

Packing and Shipping:

Product Packaging:

The automatic fire extinguisher comes in a sturdy cardboard box with protective foam inserts to ensure safe transportation. The product is securely packed to prevent any damage during shipping.

Shipping Information:

Our automatic fire extinguisher is carefully packaged and ready for shipping. We use reliable shipping carriers to deliver your order promptly and safely to your desired location. Please allow 15-20 business days for processing and delivery.

FAQ:
