Basic Information

- Brand Name: RUIGANG
- Certification: CCC/ISO/CMA/CAL/CNAS
- Model Number: XQQW10/20/30/1.6RG
- Minimum Order Quantity: 3 Set
- Price: Negotiable
- Packaging Details: Foam Packaging Crate
- Delivery Time: 10~15 Working Days
- Payment Terms: L/C,D/P,T/T,Credit Card,Western Union
- Supply Ability: 30000 Sets / Month

Product Specification

- Fire Extinguisher Color: Red
- Pattern Of Extinguishing: Enclosed Flooding
- Specification: 10L/20L/30L
- Activating Temperature: 68°C
- Maximum Protective Volume: 16m³~63m³
- Type: Automatic
- Working Temperature Range: 0°C~50°C
- Cylinder Height: 230±20(mm)~316±20(mm)
- Cylinder Diameter: 300±20(mm)~400±20(mm)
- Cylinder Capacity: 10L/20L/30L
- Extinguishing Agent: 10L/20L/30L

Because we are dedicated,
we are professional.

Product Description

Product Description:

The Automatic Fire Extinguisher is a cutting-edge fire safety solution designed to provide efficient and reliable fire suppression in various settings. This innovative product offers advanced technology and superior performance to effectively combat fires and protect both lives and property.

One of the key features of the Automatic Fire Extinguisher is its compact design, with a Cylinder Height of 300±20(mm). This makes it easy to install in different locations, ensuring comprehensive fire protection coverage. The product's innovative design allows for seamless integration into existing fire safety systems, making it a versatile and practical choice for various environments.

The Automatic Fire Extinguisher is equipped with high-quality filler HFC-227ea, a clean and effective extinguishing agent that quickly suppresses fires without leaving residue or causing damage to sensitive equipment. This environmentally friendly solution ensures minimal cleanup and downtime after a fire incident, making it an ideal choice for commercial and industrial applications.

As a Manufacturer with over 10 years of experience in the industry, we take pride in delivering reliable and durable fire safety products that meet the highest standards of quality and performance. Our commitment to excellence is reflected in the design and construction of the Automatic Fire Extinguisher, ensuring long-lasting and dependable fire protection for our customers.

The specific model of the Automatic Fire Extinguisher is XQQW10/1.6-RG, a state-of-the-art product that combines advanced technology with user-friendly features for easy and effective operation. This model is designed for Automatic activation, allowing for immediate response to fire incidents without the need for manual intervention. The Automatic Fire Extinguisher is a valuable addition to any fire safety system, providing continuous protection against potential fire hazards.

Designed as an Automatic Fire Extinguisher, this product is ideal for installations where rapid fire suppression is essential. The hanging gas fire extinguishing device is specifically designed for quick and efficient response to fires, ensuring optimal safety for occupants and property. The Automatic Fire Extinguisher is suitable for a wide range of applications, including commercial buildings, industrial facilities, and residential spaces where fire protection is a top priority.

Installation of the Hanging Fire Suppression Device is straightforward and hassle-free, thanks to its user-friendly design and compact size. The Automatic Fire Extinguisher can be easily mounted in strategic locations to provide maximum coverage and protection against potential fire risks. With its reliable performance and proven effectiveness, this product is a cost-effective solution for enhancing fire safety measures in any environment.

In conclusion, the Automatic Fire Extinguisher is a versatile and reliable fire safety product that offers advanced features and superior performance for effective fire suppression. With its compact design, high-quality filler, and Automatic activation capability, this product is a valuable addition to any fire safety system. Invest in the Automatic Fire Extinguisher today to ensure the safety and security of your property and occupants.

Applications:

RUIGANG Automatic Fire Extinguisher is a cutting-edge product designed for various application occasions and scenarios. This innovative hanging fire extinguisher is ideal for spaces where traditional fire extinguishers may not be easily accessible or practical. The automatic feature of this extinguisher provides quick and efficient fire suppression without the need for manual operation.

Another important application occasion for this hanging automatic extinguisher is in industrial settings. The RUIGANG fire extinguisher is suitable for warehouses, manufacturing facilities, and other industrial spaces where fire hazards may exist. The reliable performance and certification of CCC/ISO/CMA/CAL/CNAS make it a trusted choice for fire protection in industrial environments.

Furthermore, the Hanging Fire Suppression Device Installation is perfect for locations such as server rooms, electrical rooms, and storage areas. The compact design and automatic operation make it easy to mount in confined spaces where traditional extinguishers may not fit. The extinguisher's working temperature range of -10°C to 50°C ensures functionality in a variety of environmental conditions. With a volume range of 10L, 20L, or 30L, the RUIGANG automatic fire extinguisher offers flexibility to suit different space requirements. The manufacturer's over 10-years of experience and high supply ability of 30000 sets per month ensure reliable and consistent product availability.

Businesses can benefit from the negotiable pricing, flexible payment terms (L/C, D/P, T/T, Credit Card), and efficient delivery time of 10~15 working days. The minimum order quantity of 3 sets and the packaging details of plywood outer box with bubble bag or paper make it convenient for procurement and storage.

Packing and Shipping:

Product Packaging:

Our Automatic Fire Extinguisher is carefully packaged to ensure its safety during transportation. Each unit is enclosed in a sturdy cardboard box with ample padding to prevent any damage. The packaging is designed to be compact and easy to handle.

Shipping:

We offer fast and reliable shipping for our Automatic Fire Extinguisher product. Orders are processed promptly and shipped using trusted carriers to ensure timely delivery. Customers can track their shipment and can expect their product to arrive in excellent condition.

FAQ:

Q1: What is the brand name of the Automatic Fire Extinguisher?

A1: The brand name is RUIGANG.

Q2: Where is the Automatic Fire Extinguisher manufactured?

A2: The product is manufactured in Guangzhou, China.

Q3: What certifications does the Automatic Fire Extinguisher have?

A3: The product is certified by CCC/ISO/CMA/CAL/CNAS.

Q4: What are the packaging details for the Automatic Fire Extinguisher?

A4: The product is packaged in plywood outer box with bubble bag or paper.

Q5: What are the payment terms accepted for purchasing the Automatic Fire Extinguisher?

A5: Payment terms accepted include L/C, D/P, T/T, and Credit Card.
