

Proportioning Foam Bladder Tank 1.5MPa Strength Test

Our Product Introduction

for more products please visit us on firefm200.com

Basic Information

- Brand Name: RUIGANG
- Certification: CCCF/ISO/CCS
- Model Number: PHYM/PHYML
- Minimum Order Quantity: 1set
- Price: Negotiation
- Packaging Details: Plywood Outer Box With Bubble Bag Or Paper
- Delivery Time: 15~20 Working Days
- Payment Terms: L/C,T/T,, Western Union
- Supply Ability: 500set/month

Product Specification

- Pressure Relief Valve: Included
- Tank Color: Red
- Working Pressure: 0.6MPa
- Tank Test Pressure: 1.2MPa
- Strength Test: 1.5MPa
- Nominal Pressure: 1.2MPa
- Bladder Max. Operating Pressure: 0.6MPa
- Highlight: **Proportioning Foam Bladder Tank, 1.2MPa Pressure Proportioning Foam Bladder Tank**

Product Description

Product Description:

The Proportioning Foam Bladder Tank is a highly efficient and reliable solution for firefighting systems that require the precise mixing of foam concentrate with water. This tank is equipped with a Pressure Relief Valve, ensuring the safety and optimal performance of the system.

With a Nominal Pressure rating of 1.2MPa, this proportioning foam tank is designed to handle the demanding requirements of firefighting applications. The tank's Bladder Max. Operating Pressure of 0.6MPa ensures consistent and accurate proportioning of foam concentrate, resulting in effective fire suppression capabilities.

The tank is easily identifiable with its vibrant Red color, making it easy to locate and monitor within the firefighting system. The high-quality construction of the tank ensures durability and long-lasting performance in various environments.

Operating at a Bladder Max. Temperature of 70°C, this foam bladder tank is suitable for a wide range of temperatures, providing versatility and reliability in different firefighting scenarios. The tank's efficient Pressure Proportion Mixer ensures thorough mixing of foam concentrate with water, delivering an effective firefighting solution.

Whether used in industrial settings, commercial buildings, or other firefighting applications, the Proportioning Foam Bladder Tank offers a high level of performance and reliability. Its advanced features and durable construction make it a valuable asset for any firefighting system requiring efficient foam proportioning capabilities.

Features:

Product Name: Proportioning Foam Bladder Tank

Tank Volume: (1-18) m³

Strength Test: 1.5MPa

Pressure Relief Valve: Included

Foam Ratio: 3%

Tank Color: Red

Technical Parameters:

Pressure Relief Valve	Included
Working Pressure	0.6MPa
Bladder Max. Operating Pressure	0.6MPa
Nominal Pressure	1.2MPa
Tank Volume	(1-18) m ³
Tank Coating	Epoxy Coating
Color	Red
Foam Ratio	3%
Tank Color	Red

Applications:

RUIGANG Proportioning Foam Bladder Tank, model PHYM/PHYML, is a high-quality pressure-type proportioning mixing device designed for various application occasions and scenarios. Manufactured in Guangzhou, China, this product is certified with CCCF/ISO standards, ensuring its reliability and performance.

With a minimum order quantity of 1 set and negotiable pricing, customers can easily acquire this foam bladder tank within a delivery time of 15~20 working days. Payment terms accepted include L/C and T/T, making the purchasing process convenient for all.

Designed in a striking red color, the RUIGANG Foam Bladder Tank boasts a strength test of 1.5MPa, ensuring its durability and longevity in demanding environments. The bladder's maximum operating pressure is 0.6MPa, with a nominal pressure of 1.2MPa and a foam ratio of 3%, making it suitable for a wide range of applications.

One of the key application scenarios for this product is as a mobile foam tank, ideal for firefighting operations in various settings. Whether it's used in industrial facilities, oil refineries, or other high-risk environments, the RUIGANG Foam Bladder Tank provides efficient and reliable foam delivery to suppress fires effectively.

The versatility of this product makes it a valuable asset for firefighting teams, emergency responders, and industrial safety personnel. Its supply ability of 500 sets per month ensures that customers can always rely on RUIGANG for their foam tank needs.

Packing and Shipping:

Product Packaging and Shipping for Proportioning Foam Bladder Tank:

The Proportioning Foam Bladder Tank is carefully packed to ensure safe delivery to our customers. Each tank is wrapped in protective foam and placed in a sturdy cardboard box to prevent any damage during transportation.

For shipping, we use reliable carriers to deliver the tanks promptly to your desired location. Our team ensures that each package is securely sealed and labeled for easy identification.
